## 1.0 MANAGER'S REPORT

Dear Unit Holders,

We are pleased to present the Manager's Report of BIMB Dana AI-Falah (the "Fund") for the financial year ended 31 August 2024.

### 1.1 Fund Name/ Fund Type/ Fund Category/ Fund Investment Objective/ Fund Performance Benchmark/ Fund Distribution Policy

<b>Fund Name</b>	BIMB Dana AI-Falah
<b>Fund Type</b>	Growth
<b>Fund Category</b>	Mixed Assets
<b>Fund Investment Objective</b>	<p>The principal investment objective of the Fund is to achieve long term capital appreciation of the Units by investing in a diversified portfolio of Shariah-compliant equities, Sukuk and Islamic money market instruments. Accordingly, all investment income (if any) shall be reinvested for long term capital growth rather than distributed annually.</p> <p><i>Note:</i> <i>Any material change to the investment objective of the Fund would require unit holders' approval.</i></p>
<b>Fund Performance Benchmark</b>	<p>The selected performance benchmark for this Fund is based on 70:30 ratio of the FTSE Bursa Malaysia EMAS Shariah Index (FBM Shariah) and 12-month Term Deposit-i Tawarruq (TDT-i) of Bank Islam Malaysia Berhad. Information on the selected benchmarks can be obtained from Bursa Malaysia's website and Bank Islam's website respectively. The rationale for the composite benchmark is to reflect the average composition of the Fund's assets to be 70% in Shariah-compliant equities and 30% in Islamic fixed income securities/instruments.</p> <p>The information on the combined benchmark can be obtained from the Fund's interim or annual report or BIMB Investment by contacting our toll-free number at 1- 800-88-1196.</p> <p><i>Note:</i> <i>Investors are to note that the risk profile of the Fund may be higher than the risk profile of the benchmark.</i></p>
<b>Fund Distribution Policy</b>	<p>Distribution of income* (if any) is incidental.</p> <p><i>*Note:</i> <i>The distribution of income will automatically be reinvested. Hence, Unit Holders will receive additional Units from the reinvestment of income distribution.</i></p>

## 1.2 Performance for the Financial Year Ended 31 August 2024

### 1.2.1 Performance review

For the financial year under review, the Fund registered a return of 11.28% as compared to its benchmark's return of 9.54%. The Fund successfully achieved its investment objective of providing income and capital appreciation, buoyed by favorable equity market conditions in Malaysia. This positive performance was bolstered by the resurgence in foreign funds, political stability, and the ongoing supportive stance of the current monetary policy, all of which contributed to a conducive investment environment.

The selected performance benchmark for the Fund was based on 70:30 ratio of the FTSE Bursa Malaysia EMAS Shariah Index (FBM Shariah) and 12-month Term Deposit-i Tawarruq (TDT-i) rate of Bank Islam Malaysia Berhad.

The Fund's strategy had been focusing on well-established companies that had resilient earnings quality as well as carrying good prospects for earnings growth which offered good potential for share price appreciation in the future.

As at 31 August 2024, the Fund had 77.45% exposure in Shariah-compliant equities and Islamic Collective Investment Scheme (CIS), with the remaining in Shariah-compliant cash and cash equivalents. In terms of total Net Asset Value (NAV), the Fund size as at 31 August 2024 was at RM2.91 million, as compared to RM2.26 million as at the previous financial year end.

During the financial year under review, the Fund had not undertaken any securities lending or repurchase transactions nor cross trade transactions. There was no significant change to the state of affairs of the Fund and no circumstances that materially affect the interests of Unit Holders had occurred up to the date of this Manager's Report.

**1.3 Market Outlook and Strategy**

**1.3.1 Economy**

**Global**

The United States (US) economy grew by 3.0% annualized pace in the second quarter of 2024, according to the “second” estimate, faster than 1.4% increase in the first quarter. The second quarter growth was driven by increases in consumer spending, private inventory investment and business investment. Inflation, as measured by the Personal Consumption Expenditure (PCE) Index, increased by 2.5% annualized rate in the quarter, slower than 3.4% in the first quarter while the Core PCE increased by 2.8% against 3.7% recorded in the first quarter.

In the Euro Area, the economy grew by 0.3% quarter-on-quarter (q-o-q) in the second quarter of 2024, according to a flash estimate published by Eurostat. In the first quarter, the area’s economy had also grown by 0.3%. The growth was contributed by broad-based expansions across the area’s largest economies although Germany reported a contraction of 0.1%. Meanwhile, annual inflation rate eased to 2.2% in August 2024, down from 2.6% in July. Services sector inflation remained high at 4.2%. The core inflation slowed slightly to 2.8% from 2.9% in July. In June 2024,

the European Central Bank lowered its key interest rates by 25 basis points (bps) to support growth.

The Chinese economy grew by 4.7% year-on-year (y-o-y) in the second quarter of 2024, slowing from 5.3% rate posted in the first quarter, amid the lingering property market weakness, weak domestic demand, falling yuan, and trade frictions with the West.

## **Local**

The Malaysian economy expanded by 5.9% y-o-y in the second quarter of 2024, surpassing the 4.2% growth rate recorded in the first quarter. The impressive growth was boosted by stronger domestic demand and improvement in external trade. Larger policy support and solid labor market conditions aided consumer spending while continued progress in multi-year projects and capacity expansion by firms buoyed private investment.

In the first half of the year, headline and core inflation averaged 1.8%. In the second quarter, both headline and core inflation rose to 1.9%, from 1.7% and 1.8% respectively, largely driven by higher housing and utilities inflation.

For the first eight (8) months of 2024, Bank Negara Malaysia (BNM) has kept the Overnight Policy Rate (OPR) unchanged at 3.0%. The policymakers believe that the current OPR level will continue to stimulate growth while keeping inflation steady.

## **1.3.2 Market Review**

### **Equity**

#### **Global**

The global equity market, as measured by the FTSE All World Index, demonstrated remarkable resilience during the year under review. The index commenced the year at 452.45 points on 31 August 2023, but soon entered a correction phase, reaching a low of 415.60 points on 27 October 2023. Despite the volatility, the market showed strong recovery momentum, steadily gaining strength in the following months. By 30 August 2024, the index closed at an impressive 549.27 points, marking a substantial gain of 21.40% for the year.

#### **Local**

The FTSE Bursa Malaysia EMAS Shariah Index (FBM Shariah) began the financial year on 30 August 2023 at 10,920.64 points. The index demonstrated steady upward momentum, reaching its peak at 13,086.92 points on 17 July 2024. Despite experiencing some volatility in the subsequent months, it closed the year at 12,286.67 points, reflecting a robust gain of 12.51% for the financial year.

### **Sukuk Market and Money Market**

#### **Global**

For the first eight (8) months of 2024, global bond markets had been somewhat volatile amidst constant change in expectations of the timing of the first interest rates cut by the Federal Reserve (Fed). However, the 10-year US Treasury Notes' yield stood at 3.9% as of end August, relatively unchanged as compared to 2023's closing level. As US inflation numbers continued to ease, confidence grew that the Fed will soon begin to cut interest rates.

## Local

In the local bond market, as of end-August 2024, government bond yields stood generally firmer as compared to 2023's closing levels amidst the steady OPR, while the prospect of Fed's interest rate cut also lured foreign investors to the Malaysia's debt markets.

The yield on the 10-year Malaysia Government Securities stood at 3.76% as at the end of August 2024, relatively unchanged as compared to 2023's closing level while the 3-year government bond yields closed around 14 bps lower at 3.3%.

## 1.4 Market Outlook and Strategy

### Equity

The equity market outlook remains mixed, influenced by global economic uncertainties, inflationary pressures, and central bank policies. While developed markets face potential slowdowns due to tightening monetary conditions, emerging markets, particularly in Asia, show promise with growth opportunities driven by economic reopening, structural reforms, and strong consumer demand. Investors are also increasingly focused on ESG considerations, looking for companies with sound fundamentals, sustainable practices, and growth resilience. Market volatility is expected to persist, offering both risks and opportunities for long-term, disciplined investors.

Moving forward, the strategy for Shariah-compliant equity is to focus on rate-sensitive sectors like technology and real estate as interest rates stabilize. Leverage opportunities in Asia, especially in Taiwan's tech, Japan's exporters, and Malaysia's supply chain beneficiaries, while prioritizing companies with strong pricing power to manage inflation. ESG-aligned companies, particularly in renewable energy and tech, should remain central, alongside fundamentally strong, dividend-paying stocks with earnings visibility. Maintain a diversified portfolio to navigate geopolitical risks and capitalize on market volatility.

### Sukuk Market and Money Market

Bank Negara Malaysia (BNM) is expected to maintain the OPR unchanged at 3.0% for the rest of 2024. Future monetary policy stance is expected to be data dependent.

We will continue to seek optimum duration point for the portfolio based on the evolving outlook of interest rates direction.

## 1.2 Prestasi bagi Tahun Kewangan Berakhir pada 31 Ogos 2024

### 1.2.1 Kajian Prestasi

Bagi tahun kewangan dalam kajian, Dana telah mencatatkan pulangan sebanyak 11.28% berbanding pulangan penanda arasnya sebanyak 9.54%. Dana berjaya mencapai objektif pelaburannya untuk memberikan pendapatan dan pengukuhan modal, disokong oleh keadaan pasaran ekuiti yang menggalakkan di Malaysia. Prestasi positif ini dipacu oleh kemasukan semula dana asing, kestabilan politik, serta pendirian dasar monetari yang terus menyokong, yang semuanya menyumbang kepada persekitaran pelaburan yang kondusif. Penanda aras prestasi yang dipilih untuk Dana ini adalah berdasarkan nisbah 70:30 Indeks Shariah EMAS FTSE Bursa Malaysia (FBM Shariah) dan kadar Deposit-i Tawarruq (TDT-i) 12 bulan Bank Islam Malaysia Berhad.

Strategi Dana adalah untuk memberi tumpuan kepada syarikat-syarikat yang kukuh yang mempunyai kualiti pendapatan yang berdaya tahan serta mempunyai prospek yang baik untuk pertumbuhan pendapatan yang menawarkan potensi kenaikan harga saham pada masa hadapan.

Pada 31 Ogos 2024, Dana mempunyai 77.45% pendedahan dalam ekuiti patuh Shariah dan Skim Pelaburan Kolektif Islam (CIS), dengan baki tunai patuh Shariah dan setara tunai. Dari segi jumlah Nilai Aset Bersih (NAB), saiz Dana pada 31 Ogos 2024 adalah RM2.88 juta berbanding RM2.91 juta pada akhir tahun kewangan sebelumnya.

Sepanjang tahun kewangan dalam kajian, Dana tidak menjalankan sebarang pinjaman sekuriti atau transaksi pembelian semula mahupun transaksi perdagangan silang. Tiada perubahan ketara kepada hal ehwal Dana dan tidak berlaku keadaan yang secara material menjejaskan kepentingan Pemegang Unit sehingga tarikh Laporan Pengurus ini.

**1.3 Kajian Ekonomi dan Pasaran**

**1.3.1 Ekonomi**

**Global**

Berdasarkan pada anggaran kedua, Ekonomi Amerika Syarikat (AS) berkembang pada kadar tahunan 3.0% pada suku kedua tahun 2024, melebihi kadar 1.4% yang direkodkan bagi suku pertama. Pertumbuhan ini didorong oleh kenaikan perbelanjaan pengguna, penambahan stok sektor swasta and pelaburan perniagaan. Dalam pada itu, inflasi yang di ukur menggunakan Indeks Perbelanjaan Pengguna Peribadi (PCE), meningkat pada kadar tahunan 2.5% pada suku kedua, lebih perlahan daripada kadar 3.4% yang di rekodkan pada suku pertama. Kadar inflasi teras meningkat pada kadar 2.8%, juga lebih perlahan daripada kadar 3.7% pada suku pertama.

Di Zon Eropah, ekonomi serantau berkembang pada kadar 0.3% pada suku kedua tahun 2024, berbanding suku sebelumnya. Kadar ini menyamai kadar pertumbuhan yang direkodkan bagi suku pertama tahun 2024. Pertumbuhan ini didorong oleh pertumbuhan dalam ekonomi – ekonomi utama Eropah walaupun ekonomi Jerman merekodkan kemerosotan sebanyak 0.1%. Dalam pada itu, kadar tahunan inflasi menurun pada 2.2% pada bulan Ogos berbanding 2.6% bagi bulan Julai. Inflasi dalam sektor perkhidmatan kekal tinggi pada kadar 4.2%. Kadar inflasi

teras pula menurun pada 2.8% berbanding 2.9% pada bulan Julai. Pada bulan Jun 2024, Bank Pusat Eropah menurunkan kadar faedah utama sebanyak 25 mata asas bagi menyokong perkembangan ekonomi.

Ekonomi China berkembang pada kadar 4.7% pada suku kedua tahun 2024, berbanding suku yang sama tahun sebelumnya. Kadar ini adalah lebih rendah berbanding kadar pertumbuhan 5.3% yang di rekodkan pada suku pertama di sebabkan oleh kemelesetan dalam sektor hartanah yang berpanjangan, kelemahan permintaan domestik, kelemahan matawang dan juga perang dagangan.

## **Lokal**

Pada suku kedua tahun 2024, ekonomi Malaysia berkembang pada kadar 5.9% berbanding suku yang sama tahun sebelumnya, mengatasi kadar pertumbuhan 4.2% yang direkodkan pada suku pertama. Pertumbuhan yang kukuh ini didorong oleh kekuatan permintaan domestik dan pemulihan dalam sektor luaran. Polisi sokongan yang lebih luas dan kekukuhan sektor pekerjaan menyokong perbelanjaan pengguna manakala kemajuan berterusan projek – projek berskala besar dan pelaburan bagi peningkatan kapasiti mendorong permintaan sektor swasta.

Pada separuh pertama tahun 2024, kadar purata inflasi utama dan inflasi teras adalah 1.8%. Pada suku kedua, kedua – dua pengukur inflasi sedikit meningkat kepada 1.9%, berbanding 1.7% dan 1.8% masing – masing pada suku sebelumnya.

Pada lapan bulan pertama tahun 2024, Bank Negara Malaysia (BNM) mengekalkan Kadar Dasar Semalaman (OPR) pada tahap 3.0% dengan keyakinan bahawa kadar semasa mampu terus mendorong pertumbuhan ekonomi dan juga mengawal kadar inflasi.

### **1.3.2 Kajian Pasaran**

#### **Ekuiti**

##### **Global**

Pasaran ekuiti global, seperti yang diukur oleh Indeks FTSE All World, menunjukkan daya tahan yang luar biasa sepanjang tahun dalam kajian. Indeks ini bermula pada paras 452.45 mata pada 31 Ogos 2023, tetapi tidak lama kemudian merosot sehingga mencapai paras terendah iaitu 415.60 mata pada 27 Oktober 2023. Walaupun terdapat ketidakpastian, pasaran menunjukkan momentum pemulihan yang kukuh serta secara beransur-ansur mendapat kekuatan dalam bulan-bulan berikutnya. Menjelang 30 Ogos 2024, indeks ini ditutup pada paras yang mengagumkan iaitu 549.27 mata atau 21.40% kenaikan untuk tahun dalam kajian.

##### **Lokal**

Indeks Syariah EMAS FTSE Bursa Malaysia (FBM Syariah) memulakan tahun kewangan pada 30 Ogos 2023 pada paras 10,920.64 mata. Indeks ini menunjukkan momentum kenaikan yang stabil, mencapai paras tertinggi pada 13,086.92 mata pada 17 Julai 2024. Walaupun mengalami beberapa ketidakpastian dalam bulan-bulan berikutnya, indeks ini menutup tahun kewangan pada 12,286.67 mata, menunjukkan peningkatan kukuh sebanyak 12.51% untuk tahun dalam kajian.

## **Pasaran Sukuk dan Pasaran Wang**

### **Global**

Pada lapan bulan pertama tahun 2024, pasaran bon global mengalami ketidaktentuan yang sedikit tinggi disebabkan oleh perubahan jangkaan yang kerap tentang bilakah bank pusat AS (Fed) akan mula menurunkan kadar faedah. Bagaimana pun, kadar pulangan atas Nota Perbendaharaan AS bertempoh matang sepuluh tahun berada pada kadar 3.90% pada penghujung Ogos, tidak bertukar berbanding kadar penutup pada penghujung tahun 2023 setelah data - data inflasi AS memberi isyarat bahawa Fed mungkin sudah berada pada waktu yang sesuai untuk mula menurunkan kadar faedah.

### **Lokal**

Pada penghujung bulan Ogos 2024, secara amnya, pasaran bon tempatan di tutup lebih kukuh berbanding kadar pada penghujung Disember 2023, di bantu oleh kadar OPR yang stabil. Dalam pada itu, jangkaan bahawa Fed akan menurunkan kadar faedah juga menarik pelabur – pelabur asing untuk melabur dalam pasaran hutang tempatan.

Kadar pulangan atas Sekuriti Kerajaan Malaysia bertempoh matang sepuluh tahun di tutup tidak berubah pada 3.76% manakala kadar pulangan atas Sekuriti Kerajaan Malaysia bertempoh matang 3 tahun menurun sekitar 14 mata asas kepada 3.3% pada tempoh yang sama.

## 1.4 Tinjauan Pasaran dan Strategi

### Ekuiti

Tinjauan pasaran ekuiti kekal bercampur-campur, dipengaruhi oleh ketidaktentuan ekonomi global, tekanan inflasi, dan dasar bank pusat. Walaupun pasaran negara maju menghadapi kemungkinan kelembapan akibat keadaan monetari yang lebih ketat, pasaran membangun, terutamanya di Asia, menunjukkan potensi dengan peluang pertumbuhan yang didorong oleh pembukaan semula ekonomi, pembaharuan struktur, dan permintaan pengguna yang kukuh. Para pelabur juga semakin memberi tumpuan kepada pertimbangan ESG, mencari syarikat dengan asas yang kukuh, amalan mampan, dan daya tahan pertumbuhan. Ketidaktentuan pasaran dijangka berterusan, menawarkan risiko dan peluang bagi pelabur jangka masa panjang yang berdisiplin.

Bergerak ke hadapan, strategi untuk ekuiti patuh Syariah adalah memberi tumpuan kepada sektor yang sensitif terhadap kadar dasar semalaman seperti teknologi dan hartanah terutamanya apabila kadar faedah semakin stabil. Manfaatkan peluang di Asia, terutamanya dalam sektor teknologi Taiwan, pengeksport Jepun, dan penerima manfaat rantaian bekalan di Malaysia, sambil mengutamakan syarikat yang mempunyai kuasa harga yang kukuh untuk menguruskan inflasi. Syarikat yang sejajar dengan ESG, terutamanya dalam tenaga boleh diperbaharui dan teknologi, harus kekal menjadi tumpuan utama, di samping syarikat yang mempunyai asas kukuh, membayar dividen, serta mempunyai pendapatan yang memberangsangkan. Pengurus akan mengekalkan portfolio yang pelbagai untuk mengurangkan risiko geopolitik dan mengambil peluang daripada ketidaktentuan pasaran.

### Pasaran Bon dan Pasaran Wang

BNM dijangka akan mengekalkan kadar OPR pada 3.0% sehingga akhir tahun 2024 manakala penentuan polisi monetari di masa hadapan adalah bersandarkan data – data semasa.

Kami akan terus mencari titik tempoh matang yang optimum bagi portfolio berdasarkan penilaian semasa tentang arah tuju kadar faedah.

## 5.0 INDEPENDENT AUDITORS' REPORT

### INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF BIMB DANA AL-FALAH

#### REPORT ON THE AUDIT OF FINANCIAL STATEMENTS

##### Our opinion

In our opinion, the financial statements of BIMB Dana Al-Falah (the "Fund") give a true and fair view of the financial position of the Fund as at 31 August 2024, and of its financial performance and its cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

##### What we have audited

We have audited the financial statements of the Fund, which comprise the statement of financial position as at 31 August 2024, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 26 to 52.

##### Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

##### *Independence and other ethical responsibilities*

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code") and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

## INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF BIMB DANA AL-FALAH (CONTINUED)

### REPORT ON THE AUDIT OF FINANCIAL STATEMENTS (CONTINUED)

#### Information other than the financial statements and auditors' report thereon

The Manager of the Fund is responsible for the other information. The other information comprises Manager's Report but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of the Manager for the financial statements

The Manager of the Fund is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund or to terminate the Fund, or has no realistic alternative but to do so.

#### Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

## INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF BIMB DANA AL-FALAH (CONTINUED)

### REPORT ON THE AUDIT OF FINANCIAL STATEMENTS (CONTINUED)

#### Auditors' responsibilities for the audit of the financial statements (continued)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- (d) Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## BIMB DANA AL-FALAH

### NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2024

#### 1 INFORMATION ON THE FUND

BIMB Dana-Al Falah (hereinafter referred to as “the Fund”) was constituted pursuant to the execution of a Deed dated 6 December 2001, Fifth Master Supplemental Deed dated 9 August 2012, Sixth Master Supplemental Deed dated 18 August 2017, Seventh Master Supplemental Deed dated 6 April 2018, Eighth Master Supplemental Deed dated 25 March 2019, Ninth Master Supplemental Deed dated 9 March 2020, Tenth Master Supplemental Deed dated 30 November 2021 and Eleventh Master Supplemental Deed dated 30 December 2022 between the Manager - BIMB Investment Management Berhad and the Trustee - SCBMB Trustee Berhad.

The principal activity of the Fund is to invest in authorised investments as defined in the Deeds, which include Shariah-compliant securities of companies listed on Bursa Malaysia and short term placements.

The Manager, BIMB Investment Management Berhad, a company incorporated in Malaysia, is a subsidiary of Bank Islam Malaysia Berhad.

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the financial statements:

##### (a) Basis of preparation

The financial statements of the Fund have been prepared in accordance with Malaysian Financial Reporting Standards (“MFRS”) and International Financial Reporting Standards (“IFRS”).

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss (“FVTPL”).

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported year.

It also requires the Manager to exercise their judgement in the process of applying the Fund’s accounting policies. Although these estimates and assumptions are based on the Manager’s best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2(k) to the financial statements.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2024 (CONTINUED)

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

##### (a) Basis of preparation (continued)

- (i) Standards, amendments to published standards and interpretations to existing standard that are effective:

There are no other standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 September 2023 that have a material effect on the financial statements of the Fund.

- (ii) Standards and amendments that have been issued but not yet effective:

A number of new standards and amendments to standards and interpretations are effective for the financial period beginning after 1 September 2023. None of these is expected to have a significant effect on the financial statements of the Fund, except the following set out below:

Amendments to MFRS 101 'Classification of liabilities as current or non-current' clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting year. Classification is unaffected by the entity's expectations or events after the reporting date (e.g. the receipt of a waiver or a breach of covenant).

The amendment is effective for the annual financial reporting year beginning on or after 1 September 2024.

The amendment shall be applied retrospectively.

##### (b) Financial assets

- (i) Recognition and initial measurement

A financial instrument is recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without significant financing component) or a financial liability is initially measured at fair value plus or minus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issuance. A trade receivable without a significant financing component is initially measured at the transaction price.

Categories of financial assets are determined on initial recognition and are not reclassified subsequent to their initial recognition unless the Fund changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting year following the change of the business model.

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2024 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Financial assets (continued)

(i) Recognition and initial measurement (continued)

The Fund categorises financial instruments as follows:

(a) Amortised cost

Amortised cost category comprises financial assets that are held within a business model whose objective is to hold assets to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and profit on the principal amount outstanding. The financial assets are not designated as fair value through profit or loss. Subsequent to initial recognition, these financial assets are measured at amortised cost using the effective profit method. The amortised cost is reduced by impairment losses. Profit income, foreign exchange gains and losses and impairment are recognised in profit or loss.

Profit income is recognised by applying effective profit rate to the gross carrying amount except for credit impairment financial assets (see Note 2(b)(iv)) where the effective profit rate is applied to the amortised cost.

(b) Fair value through profit or loss

All financial assets not measured at amortised cost or fair value through other comprehensive income as described above are measured at fair value through profit or loss. On initial recognition, the Fund may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at fair value through other comprehensive income as at fair value through profit or loss if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

For listed quoted Shariah-compliant securities, valuation shall be based on the last done market price quoted by the respective stock exchanges on the relevant date. However, if a valuation based on the market price does not represent the fair value of the quoted Shariah-compliant securities, for example during abnormal market conditions; or no market price is available, including in the event of a suspension in the quotation of the quoted Shariah-compliant securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee, then the quoted Shariah-compliant securities should be valued at fair value, as determined in good faith by the Manager, based on the methods or bases approved by the Trustee after appropriate technical consultation.

Financial assets categorised as fair value through profit or loss are subsequently measured at their fair value. Net gains or losses, including any profit or dividend income, are recognised in the profit or loss.

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2024 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Financial assets (continued)

(ii) Financial instrument categories and subsequent measurement

All financial assets, except for those measured at fair value through profit or loss, are subject to impairment assessment (see Note 2(b)(iv)).

(iii) Derecognition

A financial asset or part of it is derecognised when, and only when, the contractual rights to the cash flows from the financial asset expired or the financial asset is transferred to another party without retaining control or substantially all risks and rewards of the asset. On derecognition of a financial asset, the difference between the carrying amount and the sum of the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised in equity is recognised in profit or loss.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged or cancelled or expired. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

(iv) Impairment for assets carried at amortised cost

The Fund measures credit risk and expected credit loss using probability of default, exposure at default and loss given default. The Manager considers both historical analysis and forward-looking information in determining any expected credit loss. The Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 90 days past due.

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

(b) Financial assets (continued)

(iv) Impairment for assets carried at amortised cost (continued)

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of obligor's sources of income or assets to generate sufficient future cash flows to pay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial year.

(c) Financial liabilities

The categories of financial liabilities at initial recognition are as follows:

Amortised cost

Other financial liabilities not categorised as fair value through profit or loss are subsequently measured at amortised cost using the effective profit method.

(d) Income recognition

Profit from short term investments is recognised as it accrues, using the effective profit method in profit or loss.

Dividend income (Shariah-compliant) is recognised on the ex-dividend date, when the right to receive the dividend has been established.

Realised gains and losses on sale of Shariah-compliant investments are accounted for as the difference between the net disposal proceeds and the carrying amount of investments, determined on weighted average cost basis.

(e) Amount due from/(to) stockbrokers

Amount due from/(to) stockbrokers represent receivables/(payables) for Shariah-compliant securities sold/(bought) and receivables/(payables) for that have been contracted for but not yet settled or delivered on the statement of financial position date respectively.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from the stockbroker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly, since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2024 (CONTINUED)

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(e) Amount due from/(to) stockbrokers (continued)

Significant financial difficulties of the stockbroker, probability that the stockbroker will enter bankruptcy or financial reorganisation, and default in payments are considered indicators that a loss allowance may be required.

If credit risk increases to the point that it is considered to be credit impaired, profit income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by the Manager as any contractual payment which is more than 30 days past due.

(f) Cash and cash equivalents (Shariah-compliant)

Cash and cash equivalents (Shariah-compliant) consist of cash at bank and short term placements with Islamic licensed financial institutions which have insignificant risk of changes in fair value with original maturities of 3 months or less, and are used by the Fund in the management of its short term commitments.

Cash and cash equivalents (Shariah-compliant) are categorised and measured as amortised cost.

(g) Income tax

Income tax expense comprises current tax. Current tax is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the statement of financial position date.

(h) Management fee rebate

Management fee rebate is derived from Target Fund on an accrual basis to ensure no double charging of management fee. It is accrued daily based on the fair value of Target Fund.

(i) Unit holders' capital

The Fund issues cancellable units, which are cancelled at the unit holder's option and are classified as equity. Cancellable units can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's net asset value. The outstanding units is carried at the redemption amount that is payable at the financial position date if the unit holder exercises the right to put the unit back to the Fund.

Units are created and cancelled at the unit holder's option at prices based on the Fund's net asset value per unit at the time of creation or cancellation. The Fund's net asset value per unit is calculated by dividing the net asset attributable to unit holders with the total number of outstanding units. In accordance with the Securities Commission's Guidelines on Unit Trust Funds in Malaysia, investment positions are valued based on the last traded market price for the purpose of determining the net asset value per unit for creations and cancellations.

## BIMB DANA AL-FALAH

### NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2024 (CONTINUED)

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Unit holders' capital (continued)

The units in the Fund are puttable instruments, classified as equity, which entitle the unit holders to a pro-rata share of the net asset of the Fund. The units are subordinated and have identical features. There is no contractual obligation to deliver cash or another financial asset other than the obligation on the Fund to repurchase the units. The total expected cash flows from the units are based on the change in the net asset of the Fund.

(j) Functional and presentation currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is the Fund's functional and presentation currency.

(k) Use of estimates and judgements

The preparation of financial statements in conformity with MFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised and in any future years affected.

There are no significant areas of estimation uncertainty and critical judgements in applying accounting policies that have significant effect on the amounts recognised in the financial statements.

	<u>1,794,835</u>	<u>557,718</u>	<u>2,352,553</u>

All liabilities are financial liabilities which are carried at amortised cost.

The Fund aims to provide investors with long term capital appreciation by investing in a diversified portfolio of Shariah-compliant equities, Sukuk and Islamic money market instruments.

The Fund is exposed to a variety of risks which include market risk (inclusive of price risk and profit rate risk), credit risk, liquidity risk, Shariah status reclassification risk and capital risk.

Financial risk management is carried out through internal control process adopted by the Manager and adherence to the investment restrictions as stipulated in the Deeds and the Guidelines.

#### (a) Market risk

##### (i) Price risk

The Fund is exposed to price risk because of investments held by the Fund and classified as at fair value through profit or loss. Price risk is the risk that fair value of investment will fluctuate because of the changes in market prices (other than those arising from profit rate risk). Such fluctuation may cause the Fund's net asset value ("NAV") and price of units to fall as well as rise, and income produced by the Fund may also fluctuate. The price risk is managed through diversification and selection of Shariah-compliant securities and other Islamic financial instruments within specified limits according to the Deeds.

The table below shows the financial instruments of the Fund which is exposed to price risk.

##### (i) Price risk (continued)

The following table summarises the sensitivity of the Fund's profit/(loss) before taxation and NAV risk movements at the end of each reporting year. The analysis is based on the assumptions that the market price increased and decreased by 5% (2022: 5%) with all other variables held constant and that fair value of the Fund's investments move according to the historical correlation of the index. Disclosures below are shown in absolute terms, changes and impacts could be positive or negative.

Investment in quoted Shariah-compliant securities	<u>5</u>	<u>89,742</u>

##### (ii) Profit rate risk

Profit rate risk is a general economic indicator that will have an impact on the management of the Fund.

It does not in any way suggest that this Fund will invest in conventional financial instruments. All investment carried out for the Fund including placements and Islamic deposits are in accordance with Shariah.

Fair value profit rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market profit rates.

The Fund's exposure to fair value profit rate risk arises from Shariah-compliant investment in Islamic money market instruments. The profit rate risk is expected to be minimal as the Fund's investments comprise mainly short term Islamic deposits with approved licensed Islamic financial institutions.

Cash flow profit rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market profit rates. The Fund is not exposed to cash flow profit rate risk as the Fund does not hold any financial instruments at variable profit rate.

##### (b) Credit risk

Credit risk is the risk of a financial loss to the Fund if counterparty to a financial instrument fails to meet its contractual obligations. The Fund's exposure to credit risk arises principally from its cash and cash equivalents (Shariah-compliant), amount due from stockbrokers, amount due from Manager, management fee rebate receivable and dividend receivables.

The Manager manages the credit risk by setting counterparty limits and undertaking credit evaluation to minimise the risk. The exposure to credit risk is monitored on an ongoing basis.

The following table sets out the credit risk concentration of the Fund:

##### (c) Liquidity risk

Liquidity risk is the risk that the Fund will not be able to meet its financial obligations as they fall due. The Fund's exposure to liquidity risk arises principally from its amount due to stockbrokers, accrued management fee, amount due to Trustee, audit fee payable, tax agent's fee payable, Shariah Adviser's fee payable and other payables which are due within one year.

The Fund maintains sufficient level of Islamic liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellation of units by unit holders. Islamic liquid assets comprise cash at bank and other instruments, which are capable of being converted into cash within 7 days.

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at the statement of financial position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	Less than 1 month RM	Between 1 month to 1 year RM	Total RM

Other payables	-	19,594	19,594
Contractual undiscounted cash flows	<u>67,918</u>	<u>23,094</u>	<u>91,012</u>

##### (d) Shariah status reclassification risk

This risk refers to the risk of a possibility that the currently held Shariah-compliant equities or Islamic collective investment scheme or Islamic deposits or Islamic money market instruments invested by the Fund may be reclassified or declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of or withdraw such investments. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the said investments.

#### 3 FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONTINUED)

##### (e) Capital risk management

The Fund's capital is represented by the unit holders' capital in the statement of financial position. The Manager of the Fund monitors the adequacy of capital on an ongoing basis. There is no external capital requirement imposed on the Fund.

##### (f) Fair value estimation

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair value of financial assets traded in active markets (such as trading Shariah-compliant securities) are based on quoted market prices at the close of trading on the financial year end date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of the fair value.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

##### (i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety.

If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

##### (f) Fair value estimation (continued)

##### (i) Fair value hierarchy (continued)

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

<u>2023</u>				
Financial assets at fair value through profit or loss:				
- Investment in quoted Shariah-compliant securities	1,794,835	-	-	1,794,835

Investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include quoted Shariah-compliant securities. The Fund's policies on valuation of these financial assets are stated in Note 2(b).

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. This includes unquoted Sukuk. As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information. The Fund's policies on valuation of these financial assets are stated in Note 2(b).

- (ii) The carrying values of cash and cash equivalents (Shariah-compliant), amount due from stockbrokers, amount due from Manager, dividend receivables, management fee rebate receivable and all current liabilities are a reasonable approximation of their fair values due to their short term nature.

#### 11 TOTAL EXPENSE RATIO ("TER")

	<u>2024</u>	<u>2023</u>
	%	%
TER	<u>3.11</u>	<u>3.13</u>

TER is derived from the following calculation:

$$\text{TER} = \frac{(A + B + C + D + E + F) \times 100}{G}$$

A = Management fee (net of management fee rebate)

B = Trustee's fees

C = Audit fee

D = Tax agent's fee

E = Shariah Adviser's fee

F = Other expenses including Sales and Services Tax ("SST") on transaction costs

G = Average NAV of the Fund calculated on a daily basis

The average NAV of the Fund for the financial year calculated on a daily basis is RM2,444,714 (2023: RM2,365,607).
