FUND MANAGER'S REVIEW, OUTLOOK AND STRATEGY

BIMB (INVESTMENT

In a widely anticipated move, the U.S. Federal Reserve (Fed) cut the Fed Funds Rate (FFR) by 25 basis points (bps) to a target range of 4.25%-4.5%. Nonetheless, in terms of the forward guidance, the Fed indicated that it probably would only reduce the rate by additional 50bps in 2025 as compared to 100bps indicated in their September's dot plot. The change in outlook came as inflation remains above the 2% target while labor market and economic outlooks remain positive. The Fed lowered its expected unemployment rate for 2024 to 4.2%, while headline and core inflation gauge were pushed higher to respective estimates of 2.4% and 2.8%, slightly higher than the September estimate.

On local front, Malaysia's inflation increased 1.8% in November year-on-year, slower than expected and lower than the 1.9% increase in October. November's disinflation was driven by a slower increase in the main groups of health and transport while inflation for food & beverages increased at a higher rate of 2.6% as compared to 2.3% in October.

Global bond yields broadly moved higher in December after the Fed's decision. The 10-year U.S. Treasury yields rose 40bps on the month to close at 4.57%. Local bonds fared much better in December as government bond yields only rose up to 3bps. The 10-year Malaysian Government Securities (MGS) yield closed that year at 3.81%, 8bps higher as compared to 2023's closing level.

We expect major central banks to continue cutting interest rates over the next 12 months although Bank Negara Malaysia is expected to keep the Overnight Policy Rate steady in the near term. Given this outlook, we remain constructive on local sukuk market.
