3. What am I investing in?

Launch Date	19 January 2018
Fund Category	Equity
Fund Type	Growth
Asset Allocation	<ul style="list-style-type: none"> • 70% to 98% of the Fund’s NAV will be invested in Shariah-compliant equities listed in Asia Pacific countries excluding India and Malaysia; and • At least 2% of the Fund’s NAV in Islamic liquid assets.
Investment Policy & Strategy	<p>The Fund will invest in Shariah-compliant equities (up to 98% of the Fund’s NAV) listed in Asia Pacific countries, excluding Malaysia and India.</p> <p>The Fund provides the investor with the opportunity to invest in a diversified portfolio of Shariah-compliant equities, which integrates UNGC, ESG and fundamental analysis and offers long-term capital appreciation opportunities.</p> <p>The Fund follows a rule-based, bottom-up approach which identifies a Shariah-compliant investment universe screened for sustainability performance incorporating the principles of UNGC and ESG as explained in the Section 3.4.1 of the Prospectus and applies a portfolio construction methodology based on fundamental analysis. This rule-based process is based on comprehensive research frameworks developed by the research teams. The Investment Adviser’s portfolio manager does not act independently and his/her investment advice follows the research framework in place.</p> <p>The Fund will maintain at least two-thirds (2/3) of its NAV in Shariah-compliant UNGC or ESG-compliant investments and the Fund’s investment will be evaluated on a quarterly basis to ensure that the investments are in line with the principles of the UNGC and ESG and the overall impact on investments is consistent with any other sustainability considerations. If the Fund’s investments become inconsistent with its investment policy and strategies, the Manager shall dispose the investment(s) at the next investment universe reassessment (i.e., quarterly). Reinvestment in Shariah-compliant securities which are in accordance with its policies and strategies will be made immediately upon disposal of non-compliance investment. Please refer to Section 3.10 in the Prospectus for further details of the investment limit of the Fund and its treatment on breach of investment limit.</p> <p>The Manager may take temporary defensive positions that may be inconsistent with the Fund’s principal strategy in attempting to respond to adverse market conditions to protect the Unit Holders’ interest. During the temporary defensive position, the Fund may hold more Islamic liquid assets. The equity exposures of the Fund are managed with exposures ranging from 70% to 98% depending on the Manager’s assessment of the market and the economic environment. However, the Fund’s equity range may be lower than 70% depending on the Manager’s assessment of the equity market outlook. In any event, the Manager will</p>

	<p>ensure that at least two-thirds (2/3) of the Fund's NAV remains invested in Shariah-compliant UNGC or ESG-compliant investments at all times.</p> <p><i>Note*: liquid assets mean Islamic negotiable instruments of deposits accepted bills-i, Malaysian currency deposits with Islamic financial institutions including investment certificates, commodity murabahah deposit and/or other Islamic deposit instruments as may be permitted by the SC.</i></p> <p>The investment strategy involves constructing an eligible investment universe, performing financial analysis for all companies in the investment universe in order to select the most attractive securities and finally constructing the portfolio.</p>
<p>Construction of the Investment Universe</p>	<ul style="list-style-type: none"> The investment universe of the Fund initially considers all publicly listed equities trading in Australia, China (ex. A-Shares), Hong Kong, Japan, New Zealand, Singapore, Indonesia, Korea, Philippines, Taiwan and Thailand. Securities that do not satisfy minimum liquidity criteria are excluded from the investment universe. For avoidance of doubt, securities need to have a minimum market capitalisation of USD 0.5 billion, a 6-month average daily trading volume of at least USD 10 million. ESG Book is the Investment Advisor's proprietary assessment of non-financial risk factors such as ESG issues as well as alignment with the principles of the UNGC. <ol style="list-style-type: none"> UNGC: Through ESG Book, companies with poor performance on the UNGC principles regarding human rights, labour rights, environment and anti-corruption are excluded. Poor performance based on the UNGC principles where a company's ESG Book-UNGC score is in the worst 5% of all companies. ESG: Through ESG Book, companies with poor performance on ESG topics are excluded. The ESG Book methodology identifies and weights ESG metrics based on their material (positive or negative) impact on financial performance. Poor performance based on ESG topics is where a company's ESG Book ESG score is in the bottom 25% of the sector. <p>The ESG Score from ESG Book (formerly known as S-Ray), is inspired by the Sustainability Accounting Standards Board ("SASB") and refers to information of particular relevance to investor decision-making. The ESG metrics follow the Dimension Scores and Category Scores as per SASB.</p> <p>The weights of ESG metric follow a financial materiality approach. The Total Score is calculated from the 26 Category Scores using a systematic weighting approach that accounts for industry and sector materiality. Score calculation encompasses four steps: 1) Determine material categories (classify the categories as (a) industry material, (b) sector material, and (c) immaterial), 2) Calibrate weights (using a proportional weighting approach), 3) Apply Weights (the Total Score is calculated as a weighted average of the Category Scores. Each Category Score is multiplied with its respective weight based on its classification as industry material, sector material or immaterial and the results are summed up), 4) Calculate Disclosure Score (to show disclosure completeness relative to industry metrics on a scale from 0 to 100 with 100 indicating full disclosure).</p> <div data-bbox="421 1272 1374 1792" data-label="Diagram"> </div> <ul style="list-style-type: none"> Companies are screened for Shariah-compliance according to the rules of the SAC.

5. What are the possible outcomes of my investment?

The investor may gain from the appreciation of unit price as a result of the increase in value of the underlying and/or accrual of profit earned.

However, investment involves risk. The value of the Fund and its distribution (if any) may rise or fall. These risk factors, among others, may cause you to lose part or all of your investment.

6. What are the key risks associated with this product?

General risks of investing in the Fund

- **Market Risk** – Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV.
- **Performance Risk** – The performance of the Fund depends on the financial instruments that the Fund invest. If the instruments do not perform within expectation or if there is a default, then the performance of the Fund will be impacted negatively. The performance of the Fund may also be impacted if the allocation of assets is not properly done. On that basis, there is never a guarantee that investing in the Fund will produce the desired investment returns.
- **Financing Risk** – This risk occurs when the investors take financing to finance their investment. The inherent risk of investing with financed money includes investors being unable to service the financing payment. In the event Units are used as collateral, an investor may be required to top-up the investor's existing installment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per unit as compared to the NAV per unit at the point of purchase towards settling the financing.
- **Manager's Risk** – This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the Fund.
- **Shariah Non-Compliance Risk** – This risk refers to the risk that the Fund not conforming to Shariah guidelines. The Manager (as advised by the Shariah Adviser) would be responsible for ensuring that the Fund is managed and administered in accordance with Shariah guidelines.

Any Shariah non-compliant investment made by the Fund due to error of the administration shall be disposed of or withdrawn with immediate effect, if possible, or otherwise within one (1) calendar month of knowing the status of the investment. Any gain resulting from the said disposal shall be channeled to *baitulmal* and/or charitable bodies as advised by the Shariah Adviser whilst any loss is to be borne by the Manager.

- **Operational Risk** – This risk refers to the possibility of monetary loss or inconvenience due to the breakdown of the Manager's internal control and policies. Possibly due to human error, system failure or fraud among Manager's employees. The Manager will regularly review its internal policies, systems capabilities and maintain strict segregation of duties in mitigating these risks.

Specific risks associated with investing in the Fund

- **Stock Specific Risk** – Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the Fund's NAV.
- **Liquidity Risk** – Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavorable prices.
- **Country Risk** – Investments of the Fund in any countries may be affected by changes in the country's economic, social and political stability, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the net asset value of the Fund or prices of units to fall.
- **Currency Risk** – As the investments of the Fund may be denominated in currencies other than the Base Currency, any fluctuation in the exchange rate between the Base Currency and the currencies in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the investments are denominated depreciate against the Base Currency, this will have an adverse effect on the NAV of the Fund in the Base Currency and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.
 - i. Currency risk at the Fund's portfolio level - The impact of the exchange rate movement between the Base Currency and the currency of the underlying investments may result in a depreciation of the value of the investments as expressed in the base currency of the Fund; and

- ii. Currency risk at the class level - The impact of the exchange rate movement between the Base Currency and the currency of the respective classes may result in a depreciation of the investor's holdings as expressed in the Base Currency.
- **Political Risk** – Political instability that arises from disruption of economic activity and social unrest may directly or indirectly impact the Fund's investment in a particular country. A change in government or government policies with regards to its capital market regulations may affect a Fund's financial position, possibly causing a Fund to liquidate its position at a less ideal price or below investment cost. Government policies may not have the same approach in perpetuity.
 - **Regulatory Risk** – The Fund's investments are exposed to laws and regulations in the respective countries they invested in. Regulatory changes in these countries may pose a risk to the Fund as it may materially impact on the Fund's investments. The Manager will continuously keep abreast with the regulatory developments in each respective country in mitigating such risk.
 - **Tactical Asset Allocation Risk** – The Fund may execute a tactical asset allocation strategy by shifting asset classes in between equity and cash depending on the prevailing market conditions. The Manager's investment decision may adversely affect the Fund's performance given the assessment of the Manager are not in-line with the respective market performance.
 - **Warrant Risk** – The Fund may hold warrants derived from corporate action and the value of warrants is influenced by the current market price of the underlying security, the exercise price of the warrant, the time to expiration of the warrant and the estimate of the future volatility of the underlying securities price over the life of the warrant. Particularly, risk factors related to warrants encompasses value decay over time as the warrant approaches its due date especially in the event that the warrants are held and not exercised.
 - **Sustainability Risk** – Sustainability risk means an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investment and potentially a total loss of its value and therefore an impact on the net asset value of the Fund. The Fund Manager's objective is to make sustainable investments and/or have environmental and/or social characteristics, which can be achieved by applying sustainability criteria to the selection of investments.

The Manager will evaluate the Fund's investments on a quarterly basis to determine whether the Fund's investments are consistent with UNGC principles and ESG factors. If the Fund's investments become inconsistent with UNGC principles and ESG factors, the Manager shall dispose of the investments if the value of the investments held exceeds or is equal to the original investment cost (which may include transaction cost).

On the other hand, the Fund is allowed to hold the investments if the value of the investments is below the original investment cost. The said investments will be sold once the value of such investments is equal to the original investment cost. It is also permissible for the Fund to retain the profit received during the holding period until such time the market value of the investments is equal to the original investment cost. For avoidance of doubt, the Fund will maintain at least two-thirds (2/3) of its NAV in Shariah-compliant UNGC or ESG-compliant investments.

- **SRI Investment Risk** – This is the risk that the Manager may not correctly apply the relevant criteria resulting out of the ESG analysis or that the Fund may have indirect exposure to investments which do not meet the relevant criteria (based on UNGC principles and ESG factors). This may result in potential losses to the Fund in the event that such investments are disposed at unfavourable prices due to violation of the investment policy and strategies of the UNGC principles and ESG factors. If the Fund's investments become inconsistent with its investment policy and strategies of UNGC principles and ESG factors, the Manager shall deal with the investment(s) in accordance with Section 3.4 of the Prospectus.
- **Shariah Status Reclassification Risk** – This risk refers to the risk of a possibility that the currently held Shariah-compliant equities or Islamic collective investment scheme or Islamic deposits or Islamic money market instruments invested by the Fund may be reclassified or declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of or withdraw such investments. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the said investments.

IT IS IMPORTANT TO NOTE THAT EVENTS AFFECTING THE INVESTMENTS CANNOT ALWAYS BE FORESEEN. THEREFORE, IT IS NOT ALWAYS POSSIBLE TO PROTECT INVESTMENTS AGAINST ALL RISKS. THE VARIOUS ASSET CLASSES GENERALLY EXHIBIT DIFFERENT LEVELS OF RISK. THE INVESTMENT OF THE FUND CARRIES RISKS AND INVESTORS ARE RECOMMENDED TO READ THE WHOLE PROSPECTUS TO ASSESS THE RISKS OF THE FUND.

INVESTORS ARE REMINDED THAT THE ABOVE LIST OF RISKS MAY NOT BE EXHAUSTIVE AND IF NECESSARY, THEY SHOULD CONSULT THEIR ADVISER(S).
