*S-Ray® is the Investment Advisor’s proprietary assessment of non-financial risk factors such as Environmental, Social, and Governance (ESG) issues as well as alignment with the principles of the United Nations Global Compact (UNGC).*

- a. *UNGC: Through S-Ray®, companies with poor performance on the UNGC principles regarding human rights, labour rights, environment and anti-corruption are excluded. Poor performance based on the UNGC principles is when a company’s ESG Book-UNGC score is in the worst 5% of all companies.*
- b. *ESG: Through S-Ray®, companies with poor performance on ESG topics are excluded. The S-Ray methodology identifies and weights ESG metrics based on their material (positive or negative) impact on financial performance. Poor performance based on ESG topics is where a company’s ESG Book ESG score is in the bottom 25% of the sector.*

For the financial year under review, the Fund had not undertaken any securities lending or repurchase transactions nor cross trade transactions. There was no significant change to the state of affairs of the Fund and no circumstance had occurred up to the date of this Manager’s Report that materially affected the interest of unit holders.

### **1.3 Economy and Market Review**

#### **1.3.1 Economy**

##### **Global**

The United States (US) economy accelerated 1.3% year-on-year during the first quarter of 2024 versus its fourth quarter 2023 gross domestic product (GDP) increase of 3.4%. GDP growth in the first quarter was driven by increases in consumer spending and housing investment that were partly offset by a decrease in inventory investment.

The Euro Area economy grew 0.3% year-on-year in Q1 2024, recovering from a 0.1% contraction in each of the previous two quarters. Growth was driven by exports recovery as well as consumer spending growth.

The Chinese economy advanced 5.3% year-on-year in Q1 of 2024, accelerating from a 5.2% growth in Q4 2023 and off for a strong start for the year thanks to strong performances in the industrial and services sectors.

##### **Local**

Malaysia's GDP expanded 4.2% year-on-year in the first quarter of 2024. The economic performance increased mainly due strong private expenditure and a positive turnaround in exports.

1. **Jumlah Pulangan** Dana telah disahkan oleh Novagni Analytics & Advisor Sdn. Berhad (363145-W)
2. **Purata Jumlah Pulangan** adalah berpandukan formula berikut:

$$\frac{\text{Jumlah Pulangan}}{\text{Bilangan Tahun Bawah Kajian}}$$

Pengiraan purata jumlah pulangan adalah berdasarkan kaedah yang diperolehi dari Refinitiv Lipper.

Harga unit dan pulangan pelaburan mungkin turun dan naik. Oleh itu, prestasi masa lalu tidak menjadi petunjuk prestasi masa hadapan.

### **1.3 Kajian Ekonomi dan Pasaran**

#### **1.3.1 Ekonomi**

##### **Global**

Ekonomi Amerika Syarikat (AS) melonjak 1.3% tahun ke tahun pada suku pertama 2024 berbanding peningkatan KDNK suku keempat 2023 sebanyak 3.4%. Pertumbuhan Keluaran Dalam Negara Kasar (KDNK) pada suku pertama didorong oleh peningkatan dalam perbelanjaan pengguna dan pelaburan perumahan yang sebahagiannya diimbangi oleh penurunan pelaburan inventori.

Ekonomi Zon Euro berkembang 0.3% tahun ke tahun pada Q1 2024, pulih daripada penguncupan 0.1% dalam setiap dua suku sebelumnya. Pertumbuhan didorong oleh pemulihan eksport serta pertumbuhan perbelanjaan pengguna.

Ekonomi China maju 5.3% tahun ke tahun pada Q1 2024, melonjak daripada pertumbuhan 5.2% pada Q4 2023 dan permulaan yang kukuh untuk tahun ini hasil daripada prestasi yang kukuh dalam sektor perindustrian dan perkhidmatan.

*(Sumber: Trading Economics)*

##### **Lokal**

KDNK Malaysia berkembang 4.2 peratus tahun ke tahun pada suku pertama 2024. Prestasi ekonomi meningkat terutamanya disebabkan oleh perbelanjaan swasta yang kukuh dan pemulihan positif dalam eksport.

## **5.0 INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF BIMB-ARABESQUE MALAYSIA SHARIAH-ESG EQUITY FUND**

### REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

#### Our opinion

In our opinion, the financial statements of BIMB-Arabesque Malaysia Shariah-ESG Equity Fund (the "Fund") give a true and fair view of the financial position of the Fund as at 31 May 2024, and of its financial performance and its cash flows for the financial year ended 31 May 2024 in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

#### What we have audited

We have audited the financial statements of the Fund, which comprise the statement of financial position as at 31 May 2024, and the statement of comprehensive income, statement of changes in net assets attributable to unit holders and statement of cash flows for the financial year ended 31 May 2024, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 28 to 63.

#### Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### *Independence and other ethical responsibilities*

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

## **INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF BIMB-ARABESQUE MALAYSIA SHARIAH-ESG EQUITY FUND (CONTINUED)**

### REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

#### Information other than the financial statements and auditors' report thereon

The Manager of the Fund is responsible for the other information. The other information comprises the Manager's Report but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of the Manager for the financial statements

The Manager of the Fund is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

#### Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

## **INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF BIMB-ARABESQUE MALAYSIA SHARIAH-ESG EQUITY FUND (CONTINUED)**

### REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

#### Auditors' responsibilities for the audit of the financial statements (continued)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- (d) Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MAY 2024

### 1 INFORMATION ON THE FUND

BIMB-Arabesque Malaysia Shariah-ESG Equity Fund (hereinafter referred to as “the Fund”) was constituted pursuant to the execution of a Deed dated 18 November 2016 and First Supplemental Deed dated 20 March 2023 between the Manager - BIMB Investment Management Berhad, the Trustee - CIMB Islamic Trustee Berhad (hereinafter referred to as “Deeds”).

The principal activity of the Fund is to invest in authorised investments as defined in the Deeds, which include shares or units in Islamic collective investment schemes, Shariah-compliant securities of companies listed on Bursa Malaysia, Shariah-compliant securities listed or traded on foreign markets where the regulatory authority is an ordinary or associate member of the International Organisation of Securities Commissions and Shariah-compliant short term placements.

The Manager, BIMB Investment Management Berhad, a company incorporated in Malaysia, is a subsidiary of Bank Islam Malaysia Berhad.

### 2 MATERIAL ACCOUNTING POLICY INFORMATION

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the financial statements:

#### (a) Basis of Preparation

The financial statements of the Fund have been prepared in accordance with Malaysian Financial Reporting Standards (“MFRS”) and International Financial Reporting Standards (“IFRS”).

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss (“FVTPL”).

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported financial year.

It also requires the Manager to exercise their judgement in the process of applying the Fund’s accounting policies. Although these estimates and assumptions are based on the Manager’s best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2(k) to the financial statements.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MAY 2024 (CONTINUED)

#### 2 MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

##### (a) Basis of Preparation (continued)

- (i) Standards, amendments, to published standards and interpretations to existing standard that are effective:

There are no other standards, amendments to standards or interpretations that are effective for the financial year beginning on 1 June 2022 that have a material effect on the financial statements of the Fund.

- (ii) Standards and amendments that have been issued but not yet effective:

A number of new standards, amendments to standards and interpretations are effective for the financial year beginning after 1 June 2022. None of these are expected to have a material effect on the financial statements of the Fund, except the following set out below:

Amendments to MFRS 101 'Classification of liabilities as current or non-current' clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the Fund's expectations or events after the reporting date (e.g. the receipt of a waiver or a breach of covenant).

The amendments are effective for the annual financial reporting year beginning on or after 1 June 2024.

The amendment shall be applied retrospectively.

##### (b) Financial Assets

- (i) Recognition and initial measurement

A financial instrument is recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without significant financing component) or a financial liability is initially measured at fair value plus or minus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issuance. A trade receivable without a significant financing component is initially measured at the transaction price.

Categories of financial assets are determined on initial recognition and are not reclassified subsequent to their initial recognition unless the Fund changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting year following the change of the business model.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MAY 2024 (CONTINUED)

#### 2 MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

##### (b) Financial Assets

##### (i) Recognition and Initial Measurement (continued)

The Fund categorises financial instruments as follows:

##### (a) Amortised Cost

Amortised cost category comprises financial assets that are held within a business model whose objective is to hold assets to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and profit on the principal amount outstanding. The financial assets are not designated as fair value through profit or loss. Subsequent to initial recognition, these financial assets are measured at amortised cost using the effective profit method. The amortised cost is reduced by impairment losses. Profit income, foreign exchange gains and losses and impairment are recognised in profit or loss.

Profit income is recognised by applying effective profit rate to the gross carrying amount except for credit impairment financial assets (see Note 2 (b)(iv)) where the effective profit rate is applied to the amortised cost.

##### (b) Fair Value Through Profit or Loss

All financial assets not measured at amortised cost or fair value through other comprehensive income as described above are measured at fair value through profit or loss. On initial recognition, the Fund may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at fair value through other comprehensive income as at fair value through profit or loss if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

For listed Shariah-compliant securities, valuation shall be based on the last done market price quoted by the respective stock exchanges on the relevant date. However, if a valuation based on the market price does not represent the fair value of the Shariah-compliant securities, for example during abnormal market conditions; or no market price is available, including in the event of a suspension in the quotation of the Shariah-compliant securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee, then the Shariah-compliant securities should be valued at fair value, as determined in good faith by the Manager, based on the methods or bases approved by the Trustee after appropriate technical consultation.

Financial assets categorised as fair value through profit or loss are subsequently measured at fair value. Net gains or losses, including any profit or dividend income, are recognised in the profit or loss.

## BIMB-ARABESQUE MALAYSIA SHARIAH-ESG EQUITY FUND

### NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MAY 2024 (CONTINUED)

#### 2 MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

##### (b) Financial Assets (continued)

###### (ii) Financial Instrument Categories and Subsequent Measurement

All financial assets, except for those measured at fair value through profit or loss, are subject to impairment assessment (see Note 2(b)(iv)).

###### (iii) Derecognition

A financial asset or part of it is derecognised when, and only when, the contractual rights to the cash flows from the financial asset is expired or the financial asset is transferred to another party without retaining control or substantially all risks and rewards of the asset. On derecognition of a financial asset, the difference between the carrying amount and the sum of the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised in equity is recognised in profit or loss.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged or cancelled or expired. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

###### (iv) Impairment for Assets Carried at Amortised Cost

The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. The Manager considers both historical analysis and forward-looking information in determining any expected credit loss. The Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12 month expected credit losses as any such impairment would be wholly insignificant to the Fund.

###### Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 90 days past due.

###### Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

#### 2 MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

##### (b) Financial Assets (continued)

##### (iv) Impairment for Assets Carried at Amortised Cost (continued)

###### Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of obligor's sources of income or assets to generate sufficient future cash flows to pay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial year.

##### (c) Financial Liabilities

The categories of financial liabilities at initial recognition are as follows:

###### Amortised Cost

Other financial liabilities not categorised as fair value through profit or loss are subsequently measured at amortised cost using the effective profit method.

##### (d) Income recognition

Profit income from Islamic deposits with licensed Islamic financial institutions is recognised as it accrues, using the effective profit method in profit or loss.

Dividend income is recognised on the ex-dividend date, when the right to receive the dividend has been established.

Realised gains and losses on disposal of Shariah-compliant investments are accounted for as the difference between the net disposal proceeds and the carrying amount of investments, determined on weighted average cost basis.

##### (e) Cash and cash equivalents

Cash and cash equivalents consist of cash at bank and Islamic deposits with licensed Islamic financial institutions which have insignificant risk of changes in fair value with original maturities of 3 months or less, and are used by the Fund in the management of its short term commitments.

Cash and cash equivalents are categorised and measured as amortised cost.

#### 2 MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

(f) Income Tax

Income tax expense comprises current tax. Current tax is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the statement of financial position date.

(g) Creation and cancellation of units

The unit holders' contributions to the Fund meet the definition of puttable instruments classified as financial liability under MFRS 132 "Financial Instruments: Presentation".

The Fund issues cancellable units, in four classes of units, known respectively as the RM class, USD class, SGD class and EUR class, which are cancelled at the unit holder's option and do not have identical features. Cancellable units can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's NAV of respective classes. The outstanding units are carried at the redemption amount that is payable at the date of statement of financial position if the unit holder exercises the right to put the unit back to the Fund.

Units are created and cancelled at the unit holder's option at prices based on the Fund's NAV per unit of respective classes at the close of business on the relevant dealing day. The Fund's NAV per unit of respective classes is calculated by dividing the net assets attributable to unit holders of respective classes with the total number of outstanding units of respective classes. In accordance with the Securities Commission's ("SC") Guidelines on Unit Trust Fund in Malaysia, investment positions are valued based on the last traded market price for the purpose of determining the NAV per unit for creations and cancellations.

(h) Increase/decrease in net assets attributable to unit holders

Income not distributed is included in net assets attributable to unit holders.

(i) Functional and presentation currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is the Fund's functional and presentation currency.

(j) Use of estimates and judgements

The preparation of financial statements in conformity with MFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the financial year in which the estimate is revised and in any future financial years affected.

The Fund seeks to achieve medium to long term capital appreciation.

The Fund is exposed to a variety of risks which include market risk (inclusive of price risk, profit rate risk and foreign currency risk), credit risk, liquidity risk, capital risk, Shariah status reclassification risk and Shariah status reclassification risk.

Financial risk management is carried out through internal control process adopted by the Manager and adherence to the investment restrictions as stipulated in the Deeds and the Guidelines.

#### (a) Market Risk

##### (i) Price Risk

The Fund is exposed to price risk because of investments held by the Fund and classified as at fair value through profit or loss. Price risk is the risk that fair value of investment will fluctuate because of the changes in market prices (other than those arising from profit rate risk). Such fluctuation may cause the Fund's net assets value ("NAV") and price of units to fall as well as rise, and income produced by the Fund may also fluctuate. The price risk is managed through diversification and selection of securities and other financial instruments within specified limits according to the Deeds.

The table below shows the financial instruments of the Fund which is exposed to price risk.

#### 3 FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONTINUED)

##### (a) Market Risk (continued)

##### (i) Price Risk (continued)

The following table summarises the sensitivity of the Fund's profit or loss before taxation and NAV risk movements at the end of each reporting year. The analysis is based on the assumptions that the market price increased and decreased by 5% (2023: 5%) with all other variables held constant and that fair value of the Fund's investments move according to the historical correlation of the index. Disclosures below are shown in absolute terms, changes and impacts could be positive or negative.

	Change in <u>price</u> %	Impact on profit or loss before <u>taxation/NAV</u> RM
<u>2024</u>		
Investments in quoted Shariah-compliant securities	5	154,747
<u>2023</u>		
Investments in quoted Shariah-compliant securities	5	169,199

##### (ii) Profit Rate Risk

Profit rate risk rate is a general economic indicator that will have an impact on the management of the Fund.

It does not in any way suggest that this Fund will invest in conventional financial instruments. All investment carried out for the Fund including placements and Islamic deposits are in accordance with Shariah.

Fair value profit rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market profit rates.

The Fund's exposure to fair value profit rate risk arises from Shariah-compliant investment in money market instruments. The profit rate risk is expected to be minimal as the Fund's investments comprise mainly short term Islamic deposits with approved licensed Islamic financial institutions.

Cash flow profit rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market profit rates. The Fund is not exposed to cash flow profit rate risk as the Fund does not hold any financial instruments at variable profit rate.

#### 3 FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONTINUED)

##### (a) Market Risk (continued)

##### (iii) Foreign Currency Risk (continued)

Foreign currency risk is associated with investments that are quoted and/or priced in foreign currency denomination. Foreign currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Manager will evaluate the likely directions of a foreign currency versus RM based on considerations of economic fundamentals such as profit risk differentials, balance of payments position, debt levels, and technical chart considerations.

The following table sets out the foreign currency risk concentrations arising from the denomination of the Fund's financial instruments in foreign currencies:

	Cash and equivalents	Financial assets at fair value through profit and loss	Dividend receivables	Net asset attributable to unit holders	Total
	RM	RM	RM	RM	RM

The table below summarises the sensitivity of the Fund's profit or loss before taxation and NAV to changes in foreign exchange movements at the end of each reporting year. The analysis is based on the assumption that the foreign exchange rate fluctuates by 5% (2023: 5%), with all other variables remain constants. This represents management's best estimate of a reasonable possible shift in the foreign exchange rate, having regard to historical volatility of this rate. Disclosures below are shown in absolute terms, changes and impacts could be positive or negative.

##### (b) Credit Risk

Credit risk is the risk of a financial loss to the Fund if counterparty to a financial instrument fails to meet its contractual obligations. The Fund's exposure to credit risk arises principally from its cash and cash equivalents (Shariah-compliant), amount due from Manager and dividend receivables.

The Manager manages the credit risk by setting counterparty limits and undertaking credit evaluation to minimise the risk. The exposure to credit risk is monitored on an ongoing basis.

The following table sets out the credit risk concentration of the Fund:

	Cash and cash equivalents (Shariah- compliant) RM	Amount due from Manager RM	Dividend receivables RM	Total RM

##### (c) Liquidity Risk

Liquidity risk is the risk that the Fund will not be able to meet its financial obligations as they fall due. The Fund's exposure to liquidity risk arises principally from its amount due to Manager, accrued management fee, amount due to Trustee, audit fee payable, tax agent's fee payable, Shariah Adviser's fee payable and other payables which are due within one year.

The Fund maintains sufficient level of Islamic liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellation of units by unit holders. Islamic liquid assets comprise cash at bank.

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at the statement of financial position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

	Less than 1 month RM	Between 1 month to 1 year RM	Total RM

Net assets attributable to unit holders*	<u>3,532,734</u>	-	<u>3,532,734</u>

\* Outstanding units are redeemed on demand at the unit holder's option. However, the Manager does not envisage that the contractual maturity disclosed in the table above will be representative of the actual cash outflows, as holders of these instruments typically retain them for the medium to long term.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MAY 2024 (CONTINUED)

#### 3 FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONTINUED)

##### (d) Capital Risk Management

The Fund's capital is represented by the unit holders' capital in the statement of financial position. The Manager of the Fund monitors the adequacy of capital on an ongoing basis. There is no external capital requirement imposed on the Fund.

##### (e) Shariah Status Reclassification Risk

This risk refers to the risk of a possibility that the currently held Shariah-compliant equities or Islamic collective investment scheme or Islamic deposits or Islamic money market instruments invested by the Fund may be reclassified or declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of or withdraw such investments. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the said investments.

##### (f) Fair Value Estimation

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair value of financial assets traded in active markets (such as trading Shariah-compliant securities) are based on quoted market prices at the close of trading on the financial year end date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of the fair value.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

##### (i) Fair Value Hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety.

#### 3 FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONTINUED)

##### (f) Fair Value Estimation (continued)

##### (i) Fair Value Hierarchy (continued)

If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgment by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

	<u>Level 1</u> RM	<u>Level 2</u> RM	<u>Level 3</u> RM	<u>Total</u> RM
<u>2024</u>				
Financial assets at fair value through profit or loss				
- Investments in quoted Shariah-compliant securities	3,094,936			3,094,936
<u>2023</u>				
Financial assets at fair value through profit or loss				
- Investments in quoted Shariah-compliant securities	3,383,972			3,383,972

Investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include quoted Shariah-compliant securities. The Fund does not adjust the quoted prices for these instruments. The Fund's policies on valuation of these financial assets are stated in Note 2(b).

- (ii) The carrying values of cash and cash equivalents (Shariah-compliant), amount due from Manager, dividend receivables and all current liabilities are a reasonable approximation of their fair values due to their short term nature.

#### 4 MANAGEMENT FEE

The manager's fee payable to the Manager of the Fund is based on 1.50% (2023: 1.50%) per annum for each class of the NAV of the Fund calculated on a daily basis.

There will be no further liability to the Manager in respect of management fee other than amounts recognised above.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MAY 2024 (CONTINUED)

#### 14 SHARIAH INFORMATION OF THE FUND

The Shariah Adviser confirmed that the investment portfolio of the Fund is Shariah-compliant, which comprises:

- a) Equity securities listed on Bursa Malaysia Securities Berhad which have been classified as Shariah-compliant by the Shariah Advisory Council of the Securities Commission Malaysia;
- b) Collective investment schemes which have been verified as Shariah-compliant by the Shariah Adviser;
- c) Equity securities in foreign markets which have been classified as Shariah-compliant except for the securities which have been reclassified as Shariah non-compliant by the Shariah Adviser as follows:

No.	Securities	Reclassification Effective Date	Remarks
(i)	Sankyu Inc.	23 January 2024	<p>These reclassified Shariah non-compliant securities have been completely disposed of on 29 January 2024 in accordance with the Fund's Shariah investment guidelines as provided in the Fund's deed and disclosed in the Fund's prospectus.</p> <p>All the sales proceeds can be kept by the Fund since they were still below the market value on the reclassification effective date. The market value on the reclassification effective date was used as the basis of calculation for cleansing since it was above the investment cost.</p>

- d) Cash placements and liquid assets in local market, which are placed in Shariah-compliant investment and/or instruments.
