KEY PRODUCT FEATURES

3. What am I investing in?

Launch Date	3 March 2021		
Fund Category	Mixed Assets (Shariah Compliant)		
Fund Type	Income		
Initial Offer Price	RM Class	USD Class	AUD Class
	RM0.25	USD0.25	AUD0.25
Tenure	The Fund is an open-ended fund where it does not have a fixed maturity date and may only be terminated in accordance with the terms of the Prospectus and the provisions of the Deed.		
Base Currency	RM		
Shariah Principles Applicable	<ol style="list-style-type: none"> 1. Investor appoints the Manager to manage and invest the fund under the Islamic contract of “<i>Wakalah Bi Al-Istithmar</i>” or Agency for Investment. 2. BIMB Invest is appointed to undertake the investment activities on behalf of the investor for a fee (“<i>Ujrah</i>”). 3. A Trustee is the independent party to safeguard the investor’s assets of the Fund and ensure the Manager acts in accordance with the Deed and SC Guidelines. 4. In Shariah, wakaf is a dedication of a specified asset (<i>mawquf</i>) by a settlor (<i>waqif</i>) into the administration of a trustee (<i>nazir</i>) through a legal instrument (<i>waqfiyyah</i>) such that the income or benefit of that asset is meant for a stated beneficiary(ies) (<i>mawquf alaih</i>) or is used for a stated purpose. <p>In Malaysia, the sole trustees are States Islamic Religious Councils that may appoint any institution or organisation to act as wakaf administrator (mutawalli) or collection agent for wakaf purposes.</p>		
Investment Policies & Strategies	<p>The Fund seeks to provide income through a diversified portfolio of Shariah-compliant investments across different asset classes both locally and globally. The Fund enables investors to participate in the income prospect of the Malaysian, Asia Pacific and global markets by tactical allocation of its assets. Investment exposure will be tactically allocated into the equity market and lower risk assets to maintain potential for income opportunities within the mentioned markets at the prevailing market environment. Through this exposure, the Fund aims to generate income from capital gains through holdings in Shariah-compliant equities and Islamic fixed income instruments, dividend income through holdings in Shariah-compliant equities, and profit income from holdings in Islamic fixed income instruments and Islamic money market placements.</p> <p>The Fund shall invest in a broadly diversified portfolio of Shariah-compliant equities, Shariah-compliant equity-related securities, Islamic fixed income instruments, Islamic money market instruments and Islamic deposits. The Fund’s investments into the various asset classes may range between 10% to 90% of the Fund’s NAV.</p> <p>The Fund may invest in Islamic CIS and Shariah-compliant equity linked instruments such as rights, warrants and securities going for listing.</p>		

PRODUCT HIGHLIGHTS SHEET:

	<p>The Fund may invest in Islamic derivatives, such as Islamic foreign exchange forward contracts and Islamic cross currency swaps mainly for hedging purposes.</p> <p>The Fund's foreign exposure, if any, will be in Asia Pacific and globally where the regulatory authorities are the ordinary or associate members of the International organization of Securities Commissions (IOSCO). The Fund follows a rules-based, bottom up approach to identify a Shariah investment universe screened for sustainability performance incorporating the principles of United Nation Global Compact (UNGC) and Environmental, Social and Governance (ESG) and applies a portfolio construction methodology based on fundamental analysis.</p> <p>Temporary Defensive Measures</p> <p>The Manager may take temporary defensive positions that may be inconsistent with the Fund's principal strategy by increasing the Fund's asset allocation weightings in Islamic fixed income instruments and Islamic deposits, in attempting to respond to adverse conditions that may impact the financial markets.</p> <p>Policy on Active and Frequent Trading of Securities</p> <p>The Fund will be actively managed and the frequency of its trading will very much depend on market opportunities.</p>
<p>Construction of the Investment Universe</p>	<p><u>Shariah-ESG Compliant Equities</u></p> <p>To determine the universe of eligible stocks, we employ a rigorous screening procedure which combines the following:-</p> <ul style="list-style-type: none"> • Liquidity analysis (set parameters on Free Float; Market cap and Average daily turnover over the past 6 months) • Environmental, social and governance (ESG) issues • Alignment with UN Principles • Business involvement screenings (Shariah Screening) <p>The screening process is applied to an initial universe of about 77,000 global stocks. In doing the screening, we leverage on our strategic partner Arabesque Asset Management's (Arabesque) proprietary Arabesque S-Ray® tool to determine the investment universe. The monitors the sustainability of over 7,000 of the world's largest corporations by combining over 250 environmental, social and governance (ESG) metrics with news signals from over 30,000 sources published in over 170 countries across 15 languages.</p> <p>The inclusion of extra non-financial criteria (ESG Score and GC Score) into the screening process is intended to reduce portfolio risks and generate performance, for example;</p> <ul style="list-style-type: none"> ○ Excluding companies that align poorly with the universally-appealing values of the United Nation Global Compact (UNGC) is intended to reduce reputational risks. ○ The integration of ESG criteria (which is the first principle of the United Nation Principles for Responsible Investment) may help identify firms with lower overall risk which may have potential to outperform over the medium to long term. Outperformance may be generated through growth related to sustainable products, cost savings with regard to sustainability-related innovation, and reduced operational, regulatory and reputational risks. <p>Through its selection process, the Manager aims to identify strong investment universe with lower probability for tail-risk events and high scores for sustainability criteria.</p> <p>Portfolio Suitability: consists of filtering out equities with low liquidity and small size in order to ensure the liquidity and tradability of the final portfolio. Eligible global companies must have a minimum market capitalization of USD 1 billion, a minimum 6-month average trading volume of USD 3 million, and a minimum free-float of 10%.</p> <p>For Malaysian listed stocks, the minimum market capitalization is RM100 million, and the minimum 6-month average trading volume is RM300,000. This is because market capitalization for Malaysian listed stocks are comparatively smaller compared to those of developed markets.</p> <p>Global Norms: The Manager excludes companies with poor relative performance on the ten principles of responsible business set out by the United Nations Global Compact (UNGC), categorized in four buckets: human rights, labor rights, environment and anti-corruption.</p> <p>ESG Analysis: The Manager uses the S-Ray® ESG Score which incorporates sector-specific assessments of company performance across financially material ESG issues.</p> <p>The Manager may utilise information from sources including but not limited to our strategic partner Arabesque Asset Management Limited's (Arabesque)'s proprietary S-Ray® tool to determine the investment universe.</p> <p><u>Islamic Fixed Income Instruments</u></p> <p>The selection of the investment will depend largely on the credit quality of the issuer to assure the relative certainty of principle repayment and overall total returns stability. The Manager will also consider the following issues when considering the portfolio's investment:</p> <ul style="list-style-type: none"> • Issuer's and/or guarantor's industry and business medium to long term outlook; • Issuer's and/or guarantor's financials strength and gearing levels; • Issuer's and/or guarantor's cash-flow quality and volatility;

PRODUCT HIGHLIGHTS SHEET:

	<ul style="list-style-type: none"> • Issuer's and/or guarantor's expected future cash flow and ability to pay interest and principal; • Issuer's and/or guarantor's ratings by RAM Rating Services Berhad ("RAM") or equivalent rating by other credit rating agencies; • Interest rate sensitivity; • Collateral type and value, and claims priority; • Price and yield-to-maturity; and • Issuer's and/or guarantor's ratings by RAM, Malaysian Rating Corporation Berhad (MARC), Standard & Poor's, Moody's Investors Service, Fitch Ratings Corporation or equivalent. <p>The Fund will also invest in Islamic money markets instruments and placement of Islamic deposits with Islamic financial institutions. Investments in Islamic fixed Income Instruments will adhere to the following:</p> <ul style="list-style-type: none"> • Shariah screening to ensure the Fund invest in Shariah-compliant investment. The Shariah screening methodology is explained in Section 5.2: Shariah Investment Process. • ESG and UNGC analysis that uses information from sources including but not limited to Arabesque S-Ray® and issuer information. • UNGC: Through Arabesque S-Ray®, companies with poor performance on the UNGC principles regarding human rights, labour rights, environment and anti- corruption are excluded. • ESG: Through Arabesque S-Ray®, companies with poor performance on ESG topics are excluded. The S-Ray® methodology identifies and weighs ESG metrics based on their material (positive or negative) impact on financial performance. • Economic analysis based on analysis on Malaysia and global economic data, central bank's decisions, yield curve movements and currency. • Credit analysis based on analysis on industry; issuer quality including balance sheet, cash flows, profitability, debt repayment ability, financial ratios, management and business; terms and conditions of issue; rating rationale; profit rate; yield and duration. The credit analysis emphasise on the issuers' ability to repay principal and profit on a timely basis and to mitigate credit risk. • Portfolio construction involves the Sukuk selection and weighting based on its expected return and risk. <p><u>Islamic CIS</u> The Fund may invest in Islamic CIS including but not limited to Islamic REITs and Islamic ETFs. The Fund's investment into Islamic CIS will be confined to only Islamic CIS with investment strategy that integrates ESG screening and sustainability analysis in its investment decision-making process.</p> <p><u>Islamic Derivative Investments</u> The Fund may employ Islamic derivatives such as Islamic foreign exchange forward contracts, Islamic cross currency swaps primarily for hedging purpose.</p>
<p>Portfolio Construction Methodology</p>	<p>The portfolio construction methodology is applied to stocks from the eligible investment universe and consists of two steps:</p> <ol style="list-style-type: none"> I. Portfolio Composition: The Manager will constantly review and monitor the portfolio composition based on a top down approach and select the best prospect sector and companies to be invested. The Fund is expected to be invested in the market which may consist of a mixture of both local and global Shariah-compliant investments. II. Portfolio Weights: The portfolio is rebalanced on a need basis to preserve capital while striving to generate income for investors. Hence, its stock mix may constitute a mixture of income-oriented companies as well as dividend-yielding instruments which also may include investment into Sukuk papers, Islamic CIS as well as Islamic money market instruments. <p>The stock selection and weighting are based on a long only strategy alongside assessment of a stock's non-financial information through sustainability analysis to offer investors a safe and prudent investment style without sacrificing the fund's income potential.</p>
<p>Sustainable and Responsible Investment</p>	<p>The Fund's investment policy and strategies adopt UNGC principles and ESG factors. The Manager will not solely depend on S-Ray® standards to determine the sustainability criteria of the Fund's investments but may also based on any other sustainability standards that are available and not inconsistent with any other sustainability considerations.</p> <p>The Manager will evaluate the Fund's investments on a bi-monthly basis to determine whether the Fund's investments are consistent with UNGC principles and ESG factors. If the Fund's investments become inconsistent with UNGC principles and ESG factors, the Manager shall dispose of the investments if the value of the investments held exceeds or is equal to the original investment cost (which may include transaction cost).</p> <p>On the other hand, the Fund is allowed to hold the investments if the value of the investments is below the original investment cost. It is also permissible for the Fund to retain the profit received during the holding period until such time the market value of the investments is equal to the original investment cost.</p>

Asset Allocation	Shariah-compliant equities and Shariah-compliant equity-related securities	10%-90% of NAV of the Fund	
	Islamic fixed income instruments, Islamic money market instruments and Islamic deposits	10%-90% of NAV of the Fund	
	The Manager will also maintain a sufficient level of cash or cash equivalent for liquidity purpose.		
Benchmark	50% 12-month Term Deposit-i Tawarruq of Bank Islam Malaysia Berhad + 50% FTSE Emas Shariah Index. This benchmark is selected as it reflects the Fund's investments into the various asset classes that may range between 10% to 90% of the Fund's NAV through tactical approach. <i>Note: The benchmark is only as a reference for investment comparison purpose. The risk profile of the Fund is not the risk profile of this benchmark.</i> <i>Information source: Bank Islam Malaysia Berhad and Financial Times Stock Exchange Group (FTSE)</i>		
Income Distribution Policy	Subject to availability of income, income distribution will be made monthly. The income of the Fund is computed based on the net realized income of the Fund at each month end. 50% of the Fund's monthly income distribution, if any, will be disbursed as Wakaf Asset. In the case where there is no net realized income for a particular month, no Wakaf Asset will be disbursed accordingly. For the above purpose, by investing in the Fund, Unit Holder agrees to appoint AIBIM (or any other institution or organisations as nominated by the Manager in accordance with the SC Guidelines) to distribute the Wakaf Asset to identified Wakaf projects under myWakaf initiative. Please refer to Item 7 – Wakaf Asset Distribution Mechanism herein for detailed of Wakaf Asset disbursement. The balance of 50% income distribution, if any, that is due to the investors will be reinvested into Unit Holder investment account in the form of additional Units.		
	RM Class	USD Class	AUD Class
Minimum Initial Investment*	RM200	USD200	AUD200
Minimum Additional Investment*	RM100	USD100	AUD100
Minimum Holding of Units*	100 units	100 units	100 units
Minimum Units Redeem *	100 units	100 units	100 units

Note: Please refer to the Prospectus for further details of the Fund.

***The Manager may waive or vary the amount stipulated above at its sole and absolute discretion.**

Solicitors	Merssrs Wei Chien & Partners
Auditors	PricewaterhouseCoopers PLT
Tax Adviser	KPMG Tax Services Sdn. Bhd.
Shariah Advisers	Dr. Ahmad Shahbari @ Sobri Salamon Assoc. Prof. Dr. Asmak Ab. Rahman Dr. Shamsiah binti Mohamad

5. What are the possible outcomes of my investment?

The investor may gain from the appreciation of unit price as a result of the increase in value of the underlying and/or accrual of profit earned. Subject to availability of income, income distribution will be made monthly. 50% of the Fund's monthly income distribution, if any, will be disbursed as Wakaf Asset. In the case where there is no net realized income for a particular month, no Wakaf Asset will be disbursed accordingly.

However, investment involves risk. The value of the Fund and its distribution (if any) may rise or fall. These risk factors, among others, may cause you to lose part or all of your investment. The Fund does not provide a guarantee or protection on investment capital nor guarantee a fixed rate of return.

PRODUCT HIGHLIGHTS SHEET:

MAKMUR MYWAKAF FUND

6. What are the key risks associated with this product?

You are exposed to the following specific risks associated with investing in the Fund:-

- **Stock Specific Risk**

Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the Fund's NAV. This risk may be mitigated through stringent stock selection process.

- **Country Risk**

Investments of the Fund in any countries may be affected by changes in the country's economic, social and political stability, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or prices of Units to fall.

This risk can be mitigated by security and market analysis conducted by the Manager. Proper country allocation, portfolio diversification and liquidity management are among the methods that will be adopted by the Manager to manage this risk.

- **Currency Risk**

As the investments of the Fund may be denominated in currencies other than the Base Currency, any fluctuation in the exchange rate between the Base Currency and the currencies in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the investments are denominated depreciate against the Base Currency, this will have an adverse effect on the NAV of the Fund in the Base Currency and vice versa.

Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment:

- a. Currency risk at the Fund's portfolio level. The impact of the exchange rate movement between the Base Currency and the currency of the underlying investments may result in a depreciation of the value of the investments as expressed in the Base Currency; and
- b. Currency risk at the Class level. The impact of the exchange rate movement between the Base Currency and the currency of the respective Classes may result in a depreciation of the investor's holdings as expressed in the Base Currency.

The Manager may employ hedging strategies which would minimise the impact of the exchange rate movement, however the Fund would not benefit from any potential upside if currencies move in the opposite direction of the hedging strategy. Once hedged, the Fund cannot take full advantage of favourable exchange rate. If the exposure which the Fund is hedging against results in a gain, the act of hedging would have typically reduced the potential of favourable exchange rate. On the other hand, if the exposure which the Fund is hedging against results in a loss, the act of hedging would have reduced the loss, if successfully hedged.

- **Political Risk**

Political instability that arises from disruption of economic activity and social unrest may directly or indirectly impact the Fund's investment in a particular country. A change in government or government policies with regards to its capital market regulations may affect a Fund's financial position, possibly causing a Fund to liquidate its position at a less ideal price or below investment cost. Government policies may not have the same approach in perpetuity.

The Manager conducts market analysis to mitigate this risk. Proper asset allocation, portfolio diversification and liquidity management are among the methods that will be adopted by the Manager to manage this risk.

- **Regulatory Risk**

The Fund's investments are exposed to laws and regulations in the respective countries they invested in. Regulatory changes in these countries may pose a risk to the Fund as it may materially impact the Fund's investments. The Manager will continuously keep abreast with the regulatory developments in each respective country in mitigating such risk.

- **Tactical Asset Allocation Risk**

The Fund may execute a tactical asset allocation strategy by shifting asset classes depending on the prevailing market conditions. The Manager's investment decision may adversely affect the Fund's performance given the assessment of the Manager are not in-line with the respective market performance. The Manager will assess the volatility of the market on daily basis to decide on the tactical asset allocation to minimise this risk.

- **Shariah-Compliant Warrant Risk**

The Fund may hold warrants derived from corporate action and the value of warrants is influenced by the current market price of the underlying security, the exercise price of the warrant, the time to expiration of the warrant and the estimate of the future volatility of the underlying securities price over the life of the warrant. Particularly, risk factor related to warrants encompass value decay over time as the warrant approaches its due date especially in the event that the warrants are held and not exercised.

The Manager will employ a thorough security analysis to decide trading action on any warrants held. Proper asset allocation, portfolio diversification and liquidity management are among the methods that will be adopted by the Manager to manage this risk.

PRODUCT HIGHLIGHTS SHEET:

- **Islamic REITs Risk**

Investing in Islamic REITs involves many of the same risks associated with direct ownership of real estate, including but not limited to possible declines in real estate's value, increase in interest rates and real estate borrowing costs, changes in property taxes, higher operating expenses, and damages from natural or man-made disasters and fall in market rental rates. Any adverse price movements of such Islamic REITs will adversely affect the Fund's NAV. The Manager conducts security analysis to mitigate this risk. Proper asset allocation, portfolio diversification and liquidity management among the methods that will be adopted by the Manager to manage this risk.

- **Credit and default risk**

The risk arises when the issuer of a Sukuk or Islamic money market instrument is unable to service any periodic obligations, e.g. profit payments and/or pay the principal amount when due. In such cases, investors will suffer significant losses. This risk can be mitigated by credit analysis conducted by the Manager to determine the issuer's ability to service promised payments.

- **Rate of Return**

Rate of return risk refers to the impact of the rate of return changes on the valuation of Sukuk. When rate of return rises, Sukuk prices generally decline and this may lower the market value of the Fund's investment in Sukuk. The reverse may apply when rate of return falls. In order to mitigate rate of return risk, the Manager will need to manage the Sukuk portfolio taking into account the profit rate and time to maturity of the Sukuk.

- **Profit Rate Risk**

Changes in the level of general profit rates may cause prices of Islamic money market instrument to change inversely. The Manager manages profit rate risk of Islamic money market instruments by considering their sensitivity to profit rate changes as measured by its duration.

- **Related Party Transaction Risk**

The Fund may invest in Islamic CIS managed by the Manager and may also have dealings with parties related to the Manager. It is the Manager's policy that all transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favorable to the Fund than an arms-length transaction between independent parties.

- **Counterparty Risk**

This risk refers to the risks that any licensed financial institutions that the Fund may deal with, under certain circumstances, fail to perform their obligations when due. This will result in the Fund to experience significant losses. This risk may be mitigated by the Manager through conducting credit evaluation on the counterparty to ascertain the creditworthiness of the counterparty.

- **Islamic CIS Risk**

Any adverse movement on the CIS which the Fund is investing in will impact the NAV of the Fund. For example, the CIS may underperform its benchmarks due to poor market conditions and as a result, the NAV of the Fund will be adversely affected. The Manager conducts security analysis to mitigate this risk. Proper asset allocation, portfolio diversification and liquidity management are among the methods that will be adopted by the Manager to manage this risk.

- **Non-compliance with SRI Funds Guidelines Risk**

There is a risk that the Manager may not apply the relevant criteria resulting out of the ESG analysis correctly or that the Fund could have indirect exposure to companies who do not meet the relevant criteria (based on UNGC principles and ESG factors). If the Fund's investments become inconsistent with its investment policy and strategies of UNGC principles and ESG factors, the Manager shall deal with the investment(s) in accordance with Section 3.5 of the Prospectus.

Note: Please refer to the Prospectus for further details of each risk.

It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not always possible to protect investments against all risks. The various asset classes generally exhibit different levels of risk. The investment of the Fund carries risks and investors are recommended to read the whole Prospectus to assess the risks of the Fund. Investors are reminded that the above list of risks may not be exhaustive and if necessary, investors should consult their adviser(s), e.g. bankers, lawyers, stockbrokers for a better understanding of the risks.

WAKAF ASSET DISTRIBUTION MECHANISM

7. Where does the Fund's Wakaf asset channel to?

The Manager is collaborating with AIBIM's myWakaf initiative for the distribution of Wakaf Asset. By investing in the Fund, investor agrees to appoint AIBIM to distribute the Wakaf Asset to identified wakaf projects under myWakaf initiative as per the Shariah rules of Wakaf transaction. The Wakaf Asset will be deposited directly to the collection account of myWakaf on monthly basis.

Half-yearly Wakaf Asset Report detailing the distribution of the Wakaf Asset will be featured in the Fund's interim and annual reports, from which, Unit Holders will be informed with regards to the distribution of the Wakaf Asset. The Manager will provide the Unit Holders with the interim and annual reports of the Fund within two (2) months after the end of financial period of the Fund. The Manager practices digital fund reporting hence the Fund's interim/annual report is made available on our website. Investors may view, store and download the reports from our website www.bimbinvestment.com.my.

AIBIM will be given full discretion to distribute the fund to the identified projects in the following focus sectors:

- Health
- Community Empowerment
- Education

PRODUCT HIGHLIGHTS SHEET:

MAKMUR MYWAKAF FUND

The flow chart below explained the Wakaf Asset's distribution mechanism:

In the event the appointed Wakaf Administrator:

- (i) is no longer recognized and/or authorised by the Federal or State Islamic religious bodies;
- (ii) does not provide timely reporting / disclosure of the Wakaf distribution;
- (iii) commits any wrongdoings; or
- (iv) breaches the collaboration agreement or the relevant provision of the Guidelines,

the Manager shall take immediate action to remove and replace the Wakaf Administrator with another wakaf administrator that complies with the following criteria:

- (a) Is an institution or organisation authorized/ recognized by the SIRC to act as a wakaf administrator for wakaf purposes;
- (b) To provide the Manager with timely reporting on the disclosure of the wakaf distributions; and
- (c) Adherence with the relevant provision of the Guidelines and/or collaboration agreement at all times.

Please refer to the Fund's Prospectus for the details of myWakaf.

FEES & CHARGES

8. What are the fees and charges involved?

There are fees and charges involved and investors are advised to consider the fees and charges before investing in the Fund. This table describes the fees and charges that you may **directly** incur when you purchase or repurchase Units.

Sales Charge	Up to 5% of the NAV per Unit. The sales charge is applicable to all Classes of Units. The manager may at its discretion charge a lower sale charge based on the size of investment and/or other criterion as may be determined from time to time.			
Redemption Charge	The Manager will NOT impose any redemption charge on any redemption.			
Transfer Fee	Nil.			
Switching Fee	A switching fee may be imposed by the Manager as follows:			
	<table border="1"> <tr> <td>a. 1st Time</td> <td>Nil</td> </tr> <tr> <td>b. 2ndTime onwards</td> <td>RM 25 per transaction</td> </tr> </table>	a. 1st Time	Nil	b. 2ndTime onwards
a. 1st Time	Nil			
b. 2ndTime onwards	RM 25 per transaction			
	The switching fee is applicable within the same type of asset class and same currency within funds managed by The Manager. Cross currency switching is not allowed.			

This table describes the fees that you may **indirectly** incur when you invest in the Fund.

Annual Management Fee	Up to 1.80% per annum of the NAV of the Fund. The management fee is calculated and accrued on a daily basis, payable monthly to the Manager. Note: <i>The amount of management fee is applicable to all Classes of Units based on the multi-class ratio.</i>
------------------------------	--

PRODUCT HIGHLIGHTS SHEET:

MAKMUR MYWAKAF FUND

Annual Trustee Fee	0.025% per annum of the NAV of the Fund subject to a minimum fee of RM12,000 per annum or its equivalent in the Base Currency (excluding foreign custodian fees and charges). In addition to the annual trustee fee, the Trustee may be reimbursed by the Fund for any expenses properly incurred by it in the performance of its duties. The trustee fee is calculated daily and paid monthly. Note: <i>The amount of trustee fee is applicable to all Classes of Units based on the multi-class ratio.</i>
Administrative Fees	These include (but are not limited to) the following: i. cost of printing of interim and annual reports for the Fund; ii. commissions or fees paid to brokers or dealers in effecting dealings in the Assets of the Fund, shown on the contract notes or confirmation notes; iii. where the custodian function is delegated by the Trustee, charges and fees paid to foreign sub-custodians taking into custody of any foreign assets of the Fund; iv. taxes and other duties charged on the Fund by the government and other authorities; v. costs, fees and expenses properly incurred by the auditor appointed for the Fund; vi. costs, fees and expenses incurred for the valuation of any investment of the Fund by independent valuers for the benefit of the Fund (if any); vii. costs, fees and expenses incurred for any modification of the Deed save where such modification is for the benefit of the Manager and/or the Trustee; viii. costs, fees and expenses incurred for any meeting of the Unit Holders save where such meeting is convened for the benefit of the Manager and/or the Trustee; ix. costs, commissions, fees and expenses of the sale, purchase and any other dealing of any asset of the Fund; x. costs, fees and expenses incurred in the preparation of tax returns of the Fund; xi. any tax and/or other indirect tax now or hereafter imposed by law or required to be paid in connection with any costs, fees and expenses incurred by the Fund; and xii. other related Fund's administrative expenses as permitted by the Deed. Note: <i>Any administrative expenses are applicable to all Classes of Units based on the multi-class ratio.</i>

Note: The above fees and charges are exclusive of taxes and/or duties imposed by law or required to be paid in connection with the products or services provided by the Manager and/or the Trustee.

WARNING: YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF THE UNIT TRUST CONSULTANT FOR ANY PURCHASE OF THE UNIT TRUST FUND.

VALUATIONS AND EXITING FROM INVESTMENT

9. How often are valuations available?

Valuation of the Fund is carried out at the end of each Business Day ("T" Day). As Forward Pricing method is used for this Fund, any request received on or before 4.00p.m. (Malaysia time) on any Business Day, will be processed based on the NAV per Unit at the end of that Business Day which will be computed on T+1.

For any request received after 4.00p.m. (Malaysia time) on any Business Day, the request will be processed based on the NAV per Unit at the end of the next business day which will be computed on T+2.

All foreign assets will be translated into the Base Currency and any currency translation involved for NAV computation will be based on bid foreign exchange rate quoted by Bloomberg/Reuters at 4.00 p.m. (United Kingdom time) which is equivalent to 11 p.m. or 12 a.m. midnight (Malaysia time) on the same day, or such time stipulated in the investment management standards issued by FiMM.

You may obtain the daily NAV per unit of the Fund from BIMB Investment's website at www.bimbinvestment.com.my. Alternatively you may contact our customer service via toll free number 1-800-88-1196 or email to marketing.bimbinvest@bankislam.com.my for any assistance.

10. How can I exit from this investment and what are the risks and costs involved?

- You can exit from the Fund by redeeming your investments in the Fund at any point in time by completing the redemption application form and returning it to the relevant authorised distributors/ consultants or direct to BIMB Investment Management Berhad.
- Minimum units that can be redeemed are 100 Units (for all Classes). The cut off time for a repurchase transaction is 4.00 p.m. on a Business Day. Any redemption application received after the cut off time will be considered as received on the next Business Day. Such redemption requests are deemed received and shall be irrevocable if all documents and forms received by the Manager are duly and correctly completed.
- Redemption payment will be made to you within 7 days from the day redemption request is received by the Manager and provided that all documentations are completed and verifiable.

Period	Makmur myWakaf Fund (USD class)		Benchmark	
	Total Return (%)	Average Total Return (%)	Total Return (%)	Average Total Return (%)
Since Inception (Mar' 21 – Dec' 21)	-6.17	-7.41	-2.48	-2.98

Period	Makmur myWakaf Fund (AUD class)		Benchmark	
	Total Return (%)	Average Total Return (%)	Total Return (%)	Average Total Return (%)
Since Inception (Mar' 21 – Dec' 21)	-0.96	-1.15	-0.36	-0.43

Notes:

1. **Total Return** of the Fund has been verified by Novagni Analytics & Advisory Sdn. Bhd. (363145-W)
2. **Average Total Return** is derived by this formula:

$$\frac{\text{Total Return}}{\text{Number of Years under Review}}$$

The calculation of average total return is based on methods obtained from Lipper Asia Ltd.

Past performance is not necessarily indicative of future performance and unit prices and investment returns may go down, as well as up.

Portfolio Turnover Ratio ("PTR")

For the Financial Year Ended 31 December	2021
Makmur myWakaf Fund (times)	1.18

The PTR is calculated as follows:

$$\text{PTR} = \frac{[\text{Total acquisition of the Fund for the year} + \text{Total disposal of the Fund for the year}] / 2}{\text{Average net asset value of the Fund for the year calculated on a daily basis}}$$
