5. What are the possible outcomes of my investment?

The investor may gain from the appreciation of unit price as a result of the increase in value of the underlying and/or accrual of profit earned. Income, if any, will be distributed quarterly or such other frequency as may be determined by the Manager from time to time.

However, investment involves risk. The value of the Fund and its distribution (if any) may rise or fall. These risk factors, among others, may cause you to lose part or all of your investment.

The Fund does not provide a guarantee or protection on investment capital nor guarantee a fixed rate of return.

KEY RISKS

6. What are the general and key risks associated with this product?

You are exposed to the following general risks associated with investing in the Fund:

- **Market Risk**

This risk refers to the possibility that an investment will lose its value because of a general decline in financial/equity markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV.

- **Operational Risk**

This risk refers to the day-to-day management of the Fund by the Manager that will impact the performance of the Fund. For example, investment decisions undertaken by the Manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the Fund.

- **Shariah Non-Compliance Risk**

This refers to the risk of the Fund not conforming to Shariah guidelines due to investment in Shariah non-compliant instrument or reclassification of Shariah status.

In the event that the Manager is required to rectify any Shariah non-compliance by disposing the related instrument, any losses from disposal due to investment in Shariah non-compliant instrument will be borne by the Manager whereas any losses from disposal due to reclassification of Shariah status will be borne by the Fund. In any circumstances, any gains received from disposal shall be channelled to *baitulmal* and/or charitable bodies as approved by the Shariah Advisers.

PRODUCT HIGHLIGHTS SHEET:

You are exposed to the following **key risks** associated with investing in the Fund:

- **Credit/Default Risk**

Credit risk relates to the creditworthiness of the issuers of the Islamic Investment Notes or Islamic fixed income instruments and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the Islamic Investment Notes or Islamic fixed income instruments. In the case of rated Islamic fixed income instruments, this may lead to a credit downgrade.

Default risk relates to the risk that an issuer of an Islamic Investment Notes/Islamic fixed income instrument either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the Islamic Investment Notes/Islamic fixed income instruments. This could adversely affect the value of the Fund.

The Fund may invest in Islamic Investment Notes/ Islamic fixed income instruments that are unrated.

The Manager seeks to minimise this risk by adopting the following measures:

- conduct thorough credit analysis prior to any investment;
- invest only in issues with high credit rating as stipulated in investment mandate;
- diversify our portfolio by investing in different issuers, within the Fund's investment limits.

- **Liquidity Risk**

This risk refers to the risk that security or instrument invested cannot be transacted in timely manner.

This can occur when trading volume for the security or instrument is low and/or when there is lack of demand for the security or instrument. For Islamic Investment Note that the Fund subscribed, there is no existing secondary market to trade or transact Islamic Investment Note(s).

- **Counterparty Risk**

This risk refers to any Financial Institutions that the Fund may deal with, under certain circumstances, fail to perform their obligations when due. This will result in the Fund to experience significant losses. It is the Manager's policy that all transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arms-length transaction between independent parties.

- **Profit Rate Risk**

This risk refers to the impact of the profit rate changes on the valuation of Islamic Investment Notes, Islamic fixed income instruments, Islamic money market instruments or Islamic deposit.

When profit rate rises, Islamic fixed income instruments prices generally decline and this may lower the market value of the Fund's investment in Islamic fixed income instruments. The reverse may apply when profit rate falls.

For investments into Islamic deposits, the fluctuations in profit rates will not affect the placement of Islamic deposits but will result in the opportunity loss by the Fund if the placement of Islamic deposits is made at lower profit rates.

The result from our economic analysis is used to project the future direction of profit rates. Anticipating profit rate movements is a critical element in our maturity allocation decision. We develop our portfolio maturity structure based on our profit rate view to capitalise on expected movements in profit rates.

PRODUCT HIGHLIGHTS SHEET:

- **Repurchase risk**

As the Fund is a 1-year close-ended Fund, investors are reminded to be prepared to commit their investment until the Maturity Date. Investors are also reminded that an exit fee will be charged for exiting this Fund prior to the Maturity Date and this may further reduce any monies payable to investors. The exit fee incurred by investors will be retained by the Manager.

- **Islamic CIS Risk**

Any adverse movement on the CIS which the Fund invests in will impact the NAV of the Fund. For example, the CIS may underperform its benchmarks due to poor market conditions and as a result, the NAV of the Fund will be adversely affected. The Manager conducts security analysis to mitigate this risk. Proper asset allocation, portfolio diversification and liquidity management are among the methods that will be adopted by the Manager to manage this risk.

Note: Please refer to the Information Memorandum for further details of each risk.

It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are advised to read the Information Memorandum to assess the risks associated with the Fund. Please consult your professional advisers(s) for a better understanding of the risks, if necessary.

If your investments are made through the distributor (i.e. the institutional unit trust adviser (“IUTA”) via a nominee system of ownership), you would not be deemed to be a Unit Holder under the Deed and as a result, may not exercise all the rights ordinarily conferred to a Unit Holder (e.g. the right to call for Unit Holders’ meetings and the right to vote at a Unit Holders’ meeting).

FEES & CHARGES

7. What are the fees and charges involved?

There are fees and charges involved and investors are advised to consider the fees and charges before investing in the Fund.

This table describes the fees and charges that you may **directly** incur when you purchase or repurchase Units.

Sales Charge	Up to 1.50% of the NAV per Unit of the Fund.

VALUATION AND EXITING FROM INVESTMENT

8. How often are valuations available?

Valuation of the Fund is carried out at the end of each Business Day. As Forward Pricing method is used for this Fund, any request received on or before 4.00 p.m. on any Business Day, the Units would be created and/or cancelled based on the NAV per Unit at the end of that Business Day. Any request received after the cut off time will be considered to be received on the next Business Day.

You may obtain the daily NAV per Unit of the Fund from BIMB Investment's website at www.bimbinvestment.com.my. Alternatively, you may contact our customer service via toll free number 1-800-88-1196 or email to marketing.bimbinvest@bankislam.com.my for assistance.

9. How can I exit from this investment and what are the risks and costs involved?

- You can exit from the Fund by redeeming your investments in the Fund at any point in time by completing the redemption application form and returning it to the relevant authorised distributors/consultants or direct to BIMB Investment Management Berhad. As the Fund is a close-ended fund, redemption of Units is strongly discouraged. An exit fee will be imposed to unit holders for any redemption made prior to the Maturity Date. No exit fee will be imposed for any redemption made during the Offer Period.
- The cut off time for redemption application is 4.00 p.m. on a Business Day. Any redemption application received after the cut off time will be considered as received on the next Business Day. Such redemption requests are deemed received and shall be irrevocable if all documents and forms received by the Manager are duly and correctly completed.
- Redemption proceeds will be paid to you within 10 days from the day redemption request is received by the Manager and provided that all documentations are completed and verifiable.
