1.2 Performance for the financial period ended 31 March 2022

1.2.1 Performance Review

For the financial period under review, BIMB-ARABESQUE Global Shariah Sustainable Equity Fund (BGSEF) (“the Fund”) registered a return of 0.76% as compared to benchmark’s return of 10.58% for RM Class, -0.44% as compared to benchmark return of 10.58% for RM Hedged Class, -0.64% as compared to benchmark return of 8.71% for USD Class, 0.80% as compared to benchmark return of 10.82% for AUD Class, and 0.00% as compared to benchmark return of 9.26% for SGD Class.

The Fund has managed to meet its investment objective of achieving capital appreciation for its unit holders for RM Class, AUD Class, and SGD Class, but not for USD Class and RM-Hedged Class. On a relative basis, among the driver of underperformance for the financial period were negative stock selection effects in Distribution Services and Health Services sectors by its Target Fund.

As at the end of the financial period, the Fund has 98.32% exposure in its Target Fund and the remaining in Shariah-compliant cash and cash equivalents. The total NAV of the Fund as at the end of the financial period stood at USD5.05 million comprising of five currency classes which are Malaysian Ringgit (RM), US Dollar, Singapore Dollar, Australia Dollar and RM Hedged.

For the financial period under review, the Fund has complied with the requirements of the Guidelines on Sustainable and Responsible Investment Funds. Its Target Fund’s investment policy and strategies adopt United Nations Global Compact (UNGC) principles and Environmental, Social and Governance (ESG) performance indicators, by leveraging S-Ray® data to construct its investment universe. S-Ray® is a proprietary tool of Arabesque S-Ray that measures the sustainability of global equities worldwide. S-Ray® evaluates stocks based on GC score which assesses a company based on the normative principles of the United Nations Global Compact (UNGC) namely Human Rights, Labour Rights, Environment, and Anti-Corruption, ESG score which analyses corporate performance based on sector-specific financially material ESG criteria, and preferences filter whereby stocks are evaluated based on their business involvement.

During the financial period under review, the Fund has not undertaken any securities lending or repurchase transactions nor cross trade transactions.

On 6th September 2021, we had issued a First Supplemental Prospectus for the Fund which changes the Target Funds’ name, Target Fund Manager, management company of the Target Fund, Depository of the Target Fund, inserted Sustainability Risk and editorial amendments to reflect those changes. Aside from this, there was no significant change to the state of affairs of the Fund and no circumstance that materially affect the interest of unit holders have taken place up to the date of this Manager’s Report.

The calculation of average total returns is based on methods obtained from Lipper Asia Ltd.

Past performance is not necessarily indicative of future performance and unit prices and investment returns may go down, as well as up.

1.3 Economy and Market Review

- The American economy contracted 1.4% in the first three months of 2022, well below market forecasts of a 1.1% expansion, due to trade deficit and decline in inventory investment.
- The Euro Area economy expanded by 0.2% in the first three months of 2022, the least since the bloc exited a recession last year and below market expectations of a 0.3% advance.
- The Chinese economy grew by a seasonally adjusted 1.3% in the three months to March 2022, surpassing market estimates of 0.6% and following 1.5% advance in the previous quarter.

1.2 Prestasi bagi tempoh kewangan berakhir 31 Mac 2022

1.2.1 Kajian Prestasi

Bagi tempoh kewangan dalam kajian, Dana BIMB-ARABESQUE Global Shariah Sustainable Equity (BGSEF) ("Dana") mencatatkan pulangan sebanyak 0.76% berbanding pulangan penanda aras sebanyak 10.58% untuk Kelas RM, -0.44% berbanding pulangan penanda aras sebanyak 10.58% untuk Kelas RM-Hedged, -0.64% berbanding pulangan penanda aras 8.71% untuk Kelas USD, 0.80% berbanding pulangan penanda aras 10.82% untuk Kelas AUD, dan 0.00% berbanding pulangan penanda aras 9.26% untuk Kelas SGD.

Dana telah berjaya memenuhi objektif pelaburannya untuk mencapai peningkatan modal bagi pemegang unitnya untuk Kelas RM, Kelas AUD dan Kelas SGD tetapi tidak untuk Kelas USD dan Kelas RM-Hedged. Secara relatif, prestasi yang rendah bagi tempoh kewangan antaranya adalah disebabkan kesan negatif pemilihan saham dalam sektor Perkhidmatan Agihan dan Perkhidmatan Kesihatan oleh Dana Sasarannya.

Pada akhir tempoh kewangan, Dana mempunyai 98.32% pendedahan dalam Dana Sasarannya dan selebihnya dalam pasaran tunai dan setara tunai. Jumlah Nilai Aset Bersih (NAB) Dana pada akhir tempoh kewangan berjumlah USD5.05 juta merangkumi lima kelas matawang iaitu Ringgit Malaysia (RM), Dolar US, Dolar Singapura, Dolar Australia dan RM-Hedged.

Bagi tempoh kewangan dalam kajian, Dana telah mematuhi keperluan *Guidelines on Sustainable and Responsible Investment Funds*. Dasar dan strategi pelaburan Dana sasarannya menggunakan prinsip *United Nations Global Compact* (UNGC) dan penunjuk prestasi Alam Sekitar, Sosial, dan Tadbir Urus (ESG), dengan memanfaatkan data S-Ray® untuk membina senarai prospek pelaburannya. S-Ray® ialah alat hak milik Arabesque S-Ray yang mengukur kemampuan ekuiti global di seluruh dunia. S-Ray® menilai saham berdasarkan skor Global Compact (GC) yang mengukur sesuatu syarikat berasaskan empat prinsip normatif UNGC iaitu Hak Asasi Manusia, Hak Pekerja, Alam Sekitar dan Anti Rasuah, skor ESG yang menganalisa prestasi korporat berdasarkan kriteria ESG yang material dari segi kewangan untuk sektornya secara spesifik, dan penapis keutamaan yang mana sesuatu saham dinilai berdasarkan penglibatan perniagaannya.

Bagi tempoh kewangan dalam kajian, Dana tidak menjalankan sebarang transaksi pinjaman atau pembelian semula sekuriti mahupun transaksi jual-beli silang.

Pada 6 September 2021, kami telah mengeluarkan Prospektus Tambahan Pertama untuk Dana yang mengubah nama Dana Sasaran, Pengurus Dana Sasaran, syarikat pengurusan Dana Sasaran, Depositori Dana Sasaran, memasukkan Risiko Kelestarian dan pindaan editorial untuk menunjukkan perubahan tersebut. Di samping itu, tiada sebarang perubahan ketara dalam hal ehwal Dana dan tidak berlaku sebarang keadaan yang secara material memberi kesan kepada kepentingan pemegang unit sehingga tarikh Laporan Pengurus ini disediakan.

5.0 INDEPENDENT AUDITORS' REPORT

INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF BIMB-ARABESQUE GLOBAL SHARIAH SUSTAINABLE EQUITY FUND

REPORT ON THE AUDIT OF FINANCIAL STATEMENTS

Our opinion

In our opinion, the financial statements of BIMB-ARABESQUE Global Shariah Sustainable Equity Fund (the "Fund") give a true and fair view of the financial position of the Fund as at 31 March 2022, and of its financial performance and its cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

What we have audited

We have audited the financial statements of the Fund, which comprise the statement of financial position as at 31 March 2022, and the statement of comprehensive income, statement of changes in net assets attributable to unit holders and statement of cash flows for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 27 to 50.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF
BIMB-ARABESQUE GLOBAL SHARIAH SUSTAINABLE EQUITY FUND
(CONTINUED)

REPORT ON THE AUDIT OF FINANCIAL STATEMENTS (CONTINUED)

Information other than the financial statements and auditors' report thereon

The Manager of the Fund is responsible for the other information. The other information comprises Manager's Report but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager for the financial statements

The Manager of the Fund is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards in Malaysia. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

The Manager is also responsible for overseeing the Fund's financial reporting process.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF
BIMB-ARABESQUE GLOBAL SHARIAH SUSTAINABLE EQUITY FUND (CONTINUED)

REPORT ON THE AUDIT OF FINANCIAL STATEMENTS (CONTINUED)

Auditors' responsibilities for the audit of the financial statements (continued)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- (d) Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

BIMB-ARABESQUE GLOBAL SHARIAH SUSTAINABLE EQUITY FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 8 MARCH 2021 (DATE OF LAUNCH) TO 31 MARCH 2022

1 INFORMATION ON THE FUND

BIMB-ARABESQUE Global Shariah Sustainable Equity Fund (hereinafter referred to as “the Fund”) was constituted pursuant to the execution of a Deed dated 13 July 2020 that may be entered into between the Manager - BIMB Investment Management Berhad and the Trustee – Deutsche Trustees Malaysia Berhad.

The principal activity of the Fund is to invest in Arabesque Q3.17 SICAV - Global ESG Momentum Equity (“Target Fund”), Islamic fixed deposits, Islamic money market instruments and/or Islamic liquid assets.

The Manager, BIMB Investment Management Berhad, a company incorporated in Malaysia, is a subsidiary of Bank Islam Malaysia Berhad.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the financial statements:

(a) Basis of preparation

The financial statements of the Fund have been prepared in accordance with Malaysian Financial Reporting Standards (“MFRS”) and International Financial Reporting Standards (“IFRS”).

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss (“FVTPL”).

The preparation of financial statements in conformity with MFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period.

It also requires the Manager to exercise their judgment in the process of applying the Fund’s accounting policies. Although these estimates and judgment are based on the Manager’s best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2(m).

(i) Standards and amendments to existing standards effective 1 April 2021:

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 April 2021 that have a material effect on the financial statements of the Fund.

BIMB-ARABESQUE GLOBAL SHARIAH SUSTAINABLE EQUITY FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 8 MARCH 2021 (DATE OF LAUNCH) TO 31 MARCH 2022 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Basis of preparation (continued)

(ii) New standards, amendments and interpretations effective after 1 April 2021 and have not been early adopted:

- Classification of Liabilities as Current or Non-current (Amendments to MFRS 101) (effective date deferred to 1 January 2023).
- Disclosure of Accounting Policies (Amendments to MFRS 101 and MFRS Practice Statement 2) (effective date 1 January 2023).
- Definition of Accounting Estimates (Amendments to MFRS 108) (effective date 1 January 2023).

(b) Financial assets

(i) Recognition and initial measurement

A financial instrument is recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without significant financing component) or a financial liability is initially measured at fair value plus or minus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issuance. A trade receivable without a significant financing component is initially measured at the transaction price.

Categories of financial assets are determined on initial recognition and are not reclassified subsequent to their initial recognition unless the Fund changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting year following the change of the business model.

The Fund categorises financial instruments as follows:

(a) Amortised cost

Amortised cost category comprises financial assets that are held within a business model whose objective is to hold assets to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and profit on the principal amount outstanding. The financial assets are not designated as fair value through profit or loss. Subsequent to initial recognition, these financial assets are measured at amortised cost using the effective profit method. The amortised cost is reduced by impairment losses. Profit income, foreign exchange gains and losses and impairment are recognised in profit or loss.

Profit income is recognised by applying effective profit rate to the gross carrying amount except for credit impairment financial assets (see Note 2 (b)(iv)) where the effective profit rate is applied to the amortised cost.

BIMB-ARABESQUE GLOBAL SHARIAH SUSTAINABLE EQUITY FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 8 MARCH 2021 (DATE OF LAUNCH) TO 31 MARCH 2022 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Financial assets (continued)

(i) Recognition and initial measurement (continued)

(b) Fair value through profit or loss

All financial assets not measured at amortised cost as described above are measured at fair value through profit or loss. On initial recognition, the Fund may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at fair value through other comprehensive income as at fair value through profit or loss if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets categorised as fair value through profit or loss are subsequently measured at their fair value. Net gains or losses, including any profit or dividend income, are recognised in the profit or loss.

Unlisted Islamic collective investment scheme will be valued based on the last published repurchase price at the date of the statement of financial position.

(ii) Financial instrument categories and subsequent measurement

All financial assets, except for those measured at fair value through profit or loss, are subject to impairment assessment (see Note 2(b)(iv)).

(iii) Derecognition

A financial asset or part of it is derecognised when, and only when, the contractual rights to the cash flows from the financial asset expire or the financial asset is transferred to another party without retaining control or substantially all risks and rewards of the asset. On derecognition of a financial asset, the difference between the carrying amount and the sum of the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised in equity is recognised in profit or loss.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged or cancelled or expires. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Financial assets (continued)

(iv) Impairment for assets carried at amortised cost

The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. The Manager considers both historical analysis and forward-looking information in determining any expected credit loss. The Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12 month expected credit losses as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 90 days past due.

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial year.

(c) Financial liabilities

The categories of financial liabilities at initial recognition are as follows:

Amortised cost

Other financial liabilities not categorised as fair value through profit or loss are subsequently measured at amortised cost using the effective profit method.

BIMB-ARABESQUE GLOBAL SHARIAH SUSTAINABLE EQUITY FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 8 MARCH 2021 (DATE OF LAUNCH) TO 31 MARCH 2022 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(d) Income recognition

Profit income from Shariah-compliant deposits with licensed Islamic financial institutions is recognised as it accrues, using the effective profit method in profit or loss.

Realised gains and losses on sale of Shariah-compliant investments are accounted for as the difference between the net disposal proceeds and the carrying amount of investments, determined on weighted average cost basis.

(e) Cash and cash equivalents

Cash and cash equivalents consist of cash at bank and Shariah-compliant deposits with licensed Islamic financial institutions which have insignificant risk of changes in fair value with original maturities of 3 months or less, and are used by the Fund in the management of its short term commitments.

Cash and cash equivalents are categorised and measured as amortised cost.

(f) Income tax

Income tax expense comprises current tax. Current tax is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the statement of financial position date.

(g) Management fee rebate

Management fee rebate is derived from Target Fund on an accrual basis to ensure no double charging of management fee. It is accrued daily based on the fair value of Target Fund.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 8 MARCH 2021 (DATE OF LAUNCH) TO 31 MARCH 2022 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(h) Creation and cancellation of units

The unit holders' contributions to the Fund meet the definition of puttable instruments classified as financial liability under MFRS 132 "Financial Instruments: Presentation".

The Fund issues cancellable units, in four classes of units, known respectively as the RM class, USD class, RM Hedged class, SGD class and AUD class, which are cancelled at the unit holder's option. Cancellable units can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's NAV of respective classes. The outstanding units are carried at the redemption amount that is payable at the date of statement of financial position if the unit holder exercises the right to put the unit back to the Fund.

Units are created and cancelled at the unit holder's option at prices based on the Fund's NAV per unit of respective classes at the close of business on the relevant dealing day. The Fund's NAV per unit of respective classes is calculated by dividing the net assets attributable to unit holders of respective classes with the total number of outstanding units of respective classes. In accordance with the Securities Commission's Guidelines on Unit Trust Funds in Malaysia, investment positions are valued based on the last traded market price for the purpose of determining the NAV per unit for creations and cancellations.

(i) Increase/Decrease in net assets attributable to unit holders

Income not distributed is included in net assets attributable to unit holders.

(j) Transaction costs

Transaction costs are costs incurred to acquire or dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisors, brokers and dealers. Transaction costs, when incurred, are immediately recognised in the statement of comprehensive income as expenses.

(k) Derivatives financial instruments

A derivative financial instrument is any contract that gives rise to both a financial asset of one enterprise and a financial liability or equity instrument of another enterprise.

A financial asset is any asset that is cash, contractual right to receive cash or another financial asset from another enterprise, a contractual right to exchange financial instruments with another enterprise under conditions that are potentially favourable, or an equity instrument of another enterprise.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(k) Derivative financial instruments (continued)

A financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another enterprise, or to exchange financial instruments with another enterprise under conditions that are potentially unfavourable.

The Fund's derivative financial instruments comprise forward currency contracts. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at the fair value.

The fair value of forward foreign exchange contracts is determined using forward exchange rates at the date of statements of financial position with the resulting value discounted back to present value.

The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and the nature of the item being hedged. Derivatives that do not qualify for hedge accounting are classified as financial assets/liabilities at fair value through profit or loss.

(l) Functional and presentation currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in US Dollars ("USD"), which is the Fund's functional and presentation currency.

Due to mixed factors in determining the functional currency of the Fund, the Manager has used its judgement to determine the functional currency that most faithfully represents the economic effects of the underlying transactions, events and conditions and have determined the functional currency to be in USD primarily due to the following factors:

- (i) Significant portion of the net asset value is invested in the form of cash denominated in USD for the purpose of making settlement of the foreign trades; and
- (ii) Significant portion of the Fund's investments are denominated in USD.

(m) Use of estimates and judgements

The preparation of financial statements in conformity with MFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised and in any future years affected.

There are no significant areas of estimation uncertainty and critical judgements in applying accounting policies that have significant effect on the amounts recognised in the financial statements.

The Fund aims to provide investors with liquidity and regular income, whilst maintaining capital stability by investing primarily in deposits that comply with Shariah principles.

The Fund is exposed to a variety of risks which include market risk (inclusive of price risk, profit rate risk and foreign currency risk), credit risk and liquidity risk.

Financial risk management is carried out through internal control process adopted by the Manager and adherence to the investment restrictions as stipulated in the Deeds and the Guidelines.

3 FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONTINUED)

(a) Market risk

(i) Price risk

The Fund is exposed to price risk because of investments held by the Fund and classified as at fair value through profit or loss. Price risk is the risk that fair value of investment will fluctuate because of the changes in market prices (other than those arising from profit rate risk). Such fluctuation may cause the Fund's NAV and price of units to fall as well as rise, and income produced by the Fund may also fluctuate. The price risk is managed through diversification and selection of securities and other financial instruments within specified limits according to the Deed.

The table below shows the financial instruments of the Fund which is exposed to price risk.

	<u>31.3.2022</u>
	USD
Investments in foreign Shariah-compliant collective investment Scheme	<u>4,960,821</u>

The following table summarises the sensitivity of the Fund's investments to price risk movements at the end of each reporting year. The analysis is based on the assumptions that the market price increased and decreased by 5% with all other variables held constant and that fair value of the Fund's investments move according to the historical correlation of the index. Disclosures below are shown in absolute terms, changes and impacts could be positive or negative.

(a) Market risk (continued)

(ii) Profit rate risk

Profit rate risk rate is a general economic indicator that will have an impact on the management of the Fund.

It does not in any way suggest that this Fund will invest in conventional financial instruments. All investment carried out for the Fund including placements and deposits are in accordance with Shariah.

Fair value profit rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market profit rates.

The Fund's exposure to fair value profit rate risk arises from Shariah-compliant investment in money market instruments. The profit rate risk is expected to be minimal as the Fund's investments comprise mainly Shariah-compliant short term deposits with approved licensed Islamic financial institutions.

Cash flow profit rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market profit rates. The Fund is not exposed to cash flow profit rate risk as the Fund does not hold any financial instruments at variable profit rate.

(iii) Foreign currency risk

Foreign currency risk is associated with investments that are quoted and/or priced in foreign currency denomination. Foreign currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Manager will evaluate the likely directions of a foreign currency versus USD based on considerations of economic fundamentals such as profit risk differentials, balance of payments position, debt levels, and technical chart considerations.

The following table sets out the foreign currency risk concentrations arising from the denomination of the Fund's financial instruments in foreign currencies:

	Cash and cash equivalents USD	Amount due from/(to) Manager USD	Accrued management fee USD	Forward foreign currency contracts USD	Other liabilities* USD	Net assets attributable to unit holders USD	Total USD

(iii) Foreign currency risk (continued)

The table below summarises the sensitivity of the Fund's profit or loss and NAV to changes in foreign exchange movements at the end of each reporting year. The analysis is based on the assumption that the foreign exchange rate fluctuates by 5%, with all other variables remain constants. This represents management's best estimate of a reasonable possible shift in the foreign exchange rate, having regard to historical volatility of this rate. Disclosures below are shown in absolute terms, changes and impacts could be positive or negative.

(b) Credit risk

Credit risk is the risk of a financial loss to the Fund if counterparty to a financial instrument fails to meet its contractual obligations. The Fund's exposure to credit risk arises principally from its cash and cash equivalents, amount due from Manager and management fee rebate receivable.

The Manager manages the credit risk by setting counterparty limits and undertaking credit evaluation to minimise the risk. The exposure to credit risk is monitored on an ongoing basis.

The following table sets out the credit risk concentration of the Fund:

	<u>Cash and cash equivalents</u> <u>Shariah-compliant)</u> USD	<u>Amount due from Manager</u> USD	<u>Management fee rebate receivable</u> USD	<u>Total</u> USD

(c) Liquidity risk

Liquidity risk is the risk that the Fund will not be able to meet its financial obligations as they fall due. The Fund's exposure to liquidity risk arises principally from its amount due to Target Fund Manager, amount due to Manager, accrued management fee, amount due to Trustee, audit fee, tax agent's fee, derivative liabilities at fair value through profit or loss and other payables which are due within one year.

The Fund maintains sufficient level of liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellation of units by unit holders. Liquid assets comprise cash at bank and other instruments, which are capable of being converted into cash within 7 days.

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at the statement of financial position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

* Outstanding units are redeemed on demand at the unit holder's option. However, the Manager does not envisage that the contractual maturity disclosed in the table above will be representative of the actual cash outflows, as holders of these instruments typically retain them for the medium to long term.

3 FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONTINUED)

(d) Capital risk management

The Fund's capital is represented by the unit holders' capital in the statement of financial position. The Manager of the Fund monitors the adequacy of capital on an ongoing basis. There is no external capital requirement imposed on the Fund.

(e) Fair value estimation

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair value of financial assets traded in active markets (such as trading securities) are based on quoted market prices at the close of trading on the financial year end date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of the fair value.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety.

If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

(e) Fair value estimation (continued)

(i) Fair value hierarchy (continued)

The determination of what constitutes 'observable' requires significant judgment by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<u>31.3.2022</u>				
Financial assets at fair value through profit or loss				
- Foreign Shariah compliant collective investment scheme	4,960,821	-	-	4,960,821

Investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include Shariah-compliant foreign collective investment scheme. The Fund does not adjust the quoted prices for these instruments. The Fund's policies on valuation of these financial assets are stated in Note 2(b).

- (ii) The carrying values of cash and cash equivalents, amount due from Manager, management fee rebate receivable, other receivables and all current liabilities are a reasonable approximation of their fair values due to their short term nature.

4 MANAGEMENT FEE REBATE

Management fee rebate represents the Fund's entitlement to management fee rebate from the Manager of Target Fund.

For the financial period ended 31 March 2022, the management fee rebate is recognised at a rate of 0.72% per annum for each class, calculated daily based on the NAV of the Target Fund.

There will be no further liability to the Manager in respect of management fee other than amounts recognised above.

6 TRUSTEE'S FEE

The trustee's fee payable to the trustee is based on 0.035% per annum for each class of the NAV of the Fund, subject to a minimum fee of RM15,000 per annum (excluding foreign custodian fees and charges), calculated on a daily basis.
